ZEBULON

NORTH CAROLINA

TOWN OF ZEBULON
JOINT PUBLIC HEARING
October 13th, 2025
6:00 PM

I. CALL TO ORDER

II. APPROVAL OF AGENDA

III. NEW BUSINESS

a. **Planned Development 2025-05 – Sheetz (1406 N Arendell Ave) PIN #2706011220** A request by Sheetz, INC., for a rezoning from Heavy Commercial (HC) to Planned Development for the use of a Convenience Store with Gasoline Sales.

IV. ADJOURNMENT

Topic: **RZ 2025-05 – Sheetz Planned Development (PD) Rezoning Petition**
Speaker: Matthew Lower, Planning Director
From: Matthew Lower, Planning Director
Prepared by: Christopher Medina, Planner I
Approved by: Taiwo Jayeoba, Interim Town Manager

Executive Summary:
The Board of Commissioners will consider a Planned Development (PD) rezoning petition for 1406 N Arendell Ave (PIN# 2706011220). Town Board's approval of this Planned Development rezoning petition will add a drive-through, pick-up window and one additional fuel pump at the Sheetz gas station.

Discussion:
Sheetz, Inc is seeking to rezone one parcel, totaling 2.15 acres, from Heavy Commercial (HC) to Planned Development (PD) Zoning District.

The building and site will be demoed and rebuilt to include a 6,139 square-foot building with a pickup window and one additional fuel pump for the existing use of a Convenience Store (with gasoline sales). The existing car wash will be removed from the site. The applicant is proposing nine conditions that deviate from the requirements of the Unified Development Ordinance (UDO). If approved, any development on the property will be subject to the conditions described within the proposed Planned Development Narrative and any additional Town development standards.

Unified Development Ordinance (UDO) Consistency Analysis:
"The Planned Development (PD) districts are established and intended to encourage innovative land planning and site design concepts that support a high quality of life and achieve a high quality of development, environmental sensitivity, energy efficiency, and other Town goals and objectives (UDO Section 4.5.6.A)"

As part of a complete Planned Development application the applicant has provided a Planned Development narrative to help inform the proposed districts character. While this narrative engages with the Unified Development Ordinance, the Planned Development process allows flexibility to create a new district that is beyond what is permitted under an existing zoning district.

The following conditions have been proposed as deviations from the ordinance:

1) The fuel pump canopy island shall be located between the proposed building and N. Arendell Avenue (NC 96).
   - Section 4.3.5.Q.1 "Pump islands may not be located between a building and any adjacent street rights-of-way."

2) No more than sixty percent (60%) of off-street parking will be located between the proposed structure's primary facade and North Arendell Avenue.
   - Section 5.3.1.F.11.a.i “Sites comprised of commercial buildings subject to these design standards shall be configured such that no more than 50 percent of the provided off-street parking shall be located between a building’s primary building façade and the street it faces.”
3) The proposed dumpster enclosure shall be located as shown on the site plan. The proposed dumpster shall be fully screened and enclosed. The enclosure shall be built consistently with the elevations, attached hereto and made a condition hereof. The enclosure shall be constructed with brick, concrete masonry, and pressure treated wood (or reasonably similar quality materials) to ensure aesthetic consistency with the primary structure.
   - Section 5.3.1.H “The following standards shall apply to dumpster and refuse collection areas for commercial uses. 1. The sides and back of enclosures shall be constructed of the same materials as the primary building and the following materials are prohibited a. Natural wood fence panels b. Synthetic Stucco or EFIS c. Chain-Link d. Reflective Corrugated Metal 2. Gates shall be constructed of a metal panel system and painted or coated black, grey, or similar neutral color. 3. Enclosures shall meet the standards of Table 5.10.5, Screening Methods.”
4) The primary wall/façade (facing North Arendell Avenue) will be occupied by no less than twenty-seven percent (27%) of visually transparent windows or doors. The applicant shall supplement with additional false/opaque windows and/or articulated wall forms.
   - Section 5.3.1.F.7 “Building walls shall incorporate fenestration features in accordance with the following standards (see Figure 5.3.1.F.7: Commercial Building Fenestration): a. PRIMARY BUILDING WALLS Primary building walls shall be configured so that: i. At least 40 percent of the first floor portion of the primary wall is occupied by visually transparent windows or doors; ii. At least 30 percent of a second floor portion of the primary wall (if provided) is occupied by visually transparent windows or doors; iii. A window or functional general access doorway is located at least every 20 feet along the façade; and iv. No more than 50 percent of any single window or door is obstructed by a window sign or other opaque display.”
5) The secondary wall/facade (facing Pearces Road) will be occupied by no less than twenty-four (24%) of visually transparent windows or doors, false or opaque windows, or articulated wall forms.
   - Section 5.3.1.F.7 “SECONDARY BUILDING WALLS Secondary building walls shall be configured so that at least 30 percent of the ground floor façade and at least 20 percent of any second floor façade is occupied by: i. Visually transparent windows or

doors with regular spacing; ii. False or opaque windows with regular spacing; iii. Articulated wall forms designed to mimic window openings that also include an overhang or awning."

6) The street setback for Pearces Road shall be ten (10) feet for the dumpster enclosure.
   - Section 3.4.4 "Heavy Commercial: Minimum street setback (feet) 30"
7) The side perimeter buffer for the boundary adjoining the property located at 1420 North Arendell Avenue (PIN: 1796919353) shall be three (3) feet.
   - Section 5.6.10 "HC along HC – Type A perimeter buffer: Buffer width (feet) 10"
8) The streetscape buffer along North Arendell Avenue and Pearces Road shall be zero (0) feet.
   - Section 5.6.12 "Streetscape buffers shall maintain a minimum width of at least 15 feet from the lot lines subject to these standards."
9) Parking spaces 11, 12, 13, and 14 (as shown on the site plan) shall be permitted to be further than fifty (50) feet from the trunk of a canopy tree. Planters shall be located along the sidewalk at the storefront to enhance landscaping for the parking area and for the parking spaces 11, 12, 13, and 14.
   - Section 5.6.9.A "1. Parking lots subject to these standards shall include at least one canopy tree for every 12 off-street parking spaces provided. 2. Required canopy trees may be placed around, in, or near the parking lot provided that no parking space is more than 50 feet from the trunk of a canopy tree."

Policy Analysis:

Comprehensive Land Use Plan:

The future land use map shows the subject parcel as General Commercial (GC). The commercial use is consistent with the GC future land use. "This designation is for properties in commercial retail, office and service uses, primarily along portions of major roadway corridors within the community for high visibility and accessibility, but also in other locations to accommodate smaller-scale and neighborhood-focused businesses. (Land Use and Development, Page 18)."

The rezoning is supported by the following CLUP goals:

1. **Goals for Land Use and Development:**
   - **Goal 1:** A land use allocation and pattern that advances Zebulon's objectives of achieving greater housing variety, supporting its economic development and tax base needs, and creating a complete community with convenient resident access to schools, recreation, shopping and services (Land Use and Development, p.2).
   - **Goal 2:** Consistent character of land use within areas intended for particular character types, from rural and suburban through auto-oriented and urban along the community character spectrum (Land Use and Development, p.2).

2. **Goals for Growth Capacity**
    - **Goal 1:** A growth management philosophy and strategies that enable most of the projected growth in the Zebulon area to be absorbed within and contiguous to the existing developed town (Growth Capacity, p.2).
    - **Goal 2:** A growth progression and pattern of development that promotes the Town's long-term financial sustainability and applies an adequate public facilities approach to growth management. (Growth Capacity, p.2).
3. **Economic Development Goals and Actions**:
    - **Goal 1:** An economically resilient community with a diverse yet stable economic base, an environment that supports both entrepreneurs and established businesses, and a local real estate market attractive to emerging investment, job creation and development opportunities (Economic Development, p. 2).
    - **Goal 2**: A town that remains the unquestioned hub community for eastern Wake County as a multi-purpose destination and center of employment, commerce, government services, education, culture and recreational and leisure activities for residents and visitors (Economic Development, p. 2).

Outcomes:

The rezoning will have the following outcomes:

1. **Improvements for the existing convenience store (with gasoline sales):** The rezoning from a Heavy Commercial (HC) zoning district to a Planned Development (PD) district will allow Sheetz to add both a drive-through, pick-up window and one more fuel pump (multi-product dispenser (MPD)).
2. The rezoning to PD will allow for the redevelopment of the site in a manner that mirrors the existing building orientation and site plan, resulting in a legally conforming project.
3. The site will be developed to an alternative form other than what is prescribed in the Unified Development Ordinance (UDO).

Staff Recommendation for Joint Public Hearing:

Staff recommends opening the public hearing for this Planned Development rezoning petition. After public hearing and discussion closes, refer the matter to the Planning Board for consideration.

Staff Recommendation for Planning Board:

Town staff recommend that the Planning Board consider the appropriateness of applying the Planned Development (PD) process to this request. The proposed redevelopment would bring the Sheetz site into legal conformity and provide an updated building form consistent with the Town's Unified Development Ordinance (UDO).

If the Board determines that utilizing the PD process to make a project conforming by allowing flexibility from the ordinance is consistent with the intent of UDO section 2.2.15 and 3.5.6, staff recommends approval with the proposed conditions.

Alternatively, if the Board believes that applying the PD process in this instance would constitute an avoidance of the Town's established design and development standards—particularly given that the site is being completely redeveloped- then staff recommends denial of the request.

LEGISLATIVE CONSIDERATIONS – PLANNED DEVELOPMENT

The applicant shall propose site-specific standards and conditions that take into account the following considerations, which are considerations that are relevant to the legislative determination of whether or not the proposed planned development is in the public interest. Therese considerations do not exclude the legislative consideration of any other factor that is relevant to the public interest. Failure to adequately address the findings below may result in denial of the application. Please provide responses to the following standards as outlined in Section 2.2.15 of the Unified Development Ordinance.

1. Please provide details on how the proposed Planned Development advances the public health, safety, or welfare
The proposed Planned Development advances the public health, safety, and welfare of the community by redeveloping an aged-store and development. The access points are consistent with existing conditions and new lighting/underground storage tanks will be included. The proposed development has planned a fence in between the residential and retail to enhance safety of the neighbors.
2. Please provide details on how the proposed Planned Development is appropriate for its proposed location, and is consistent with the purposes, goals, objectives, and policies of the Town's adopted policy guidance.
The proposed Planned Development is appropriate for its proposed location and is consistent with the purposes, goals, objectives, and policies of the Town's adopted policy guidance because it maintains the current use but modifies the orientation to be consistent with new Town standards and Comprehensive Plan.
3. Please provide details on how the proposed Planned Development is reasonable and in the public interest.
The proposed Planned Development is reasonable and in the public interest because it redevelops an aged-store and development. The development will become consistent with new Town standards and Comprehensive Plan.
4. Please provide details on how the proposed Planned Unit Development provides for innovative land planning and site design concepts that support a high quality of life and achieve a high quality of development, environmental sensitivity, energy efficiency, and other Town goals and objectives.
The proposed Planned Development provides for innovative land planning and site design concepts that support a high quality of life and achieve a high quality of development, environmental sensitivity, energy efficiency, and other Town goals and objectives because the store will be rebuilt to current Sheetz standards, including the latest lighting design, which is most efficient. The development will become in compliance with the latest Town standards.
5. Please provide details on how the proposed planned unit development provides improved means of access, open space, and design amenities;
The proposed Planned Development provides improved means of access, open space, and design amenities because it is not increasing the impervious area onsite, the existing stormwater management pond is being maintained, and the access points are being maintained. A new amenity for the community, a pick-up window, is being proposed so customers can have easier accessibility to getting food and beverage from the store.

6. Please provide details on how the proposed Planned Unit Development provides a well-integrated mix of residential and nonresidential land uses in the same development, including a mix of housing types, lot sizes, and densities;
The proposed Planned Development provides a commercial use that is adjacent to a residential use.
7. Please provide details on how the proposed Planned Unit Development creates a system of incentives for redevelopment and infill in order to revitalize established areas;
The proposed Planned Development creates a system of incentives for redevelopment and infill in order to revitalize established areas because it is demolishing and rebuilding a successful, existing use in order to bring the site up to current standards and appearance. Completing this rebuild project will allow Sheetz to continue to bring in business for the community for another 15+ years.
8. Please provide details on how the proposed Planned Unit Development promotes a vibrant public realm by placing increased emphasis on active ground floor uses, pedestrian-oriented building façade design, intensive use of sidewalks, and establishment of public gathering areas;
The proposed Planned Development promotes a vibrant public realm by including bike racks, outdoor seating, and maintains the open space adjacent to the street frontages.
9. Please provide details on how the proposed Planned Unit Development provides for efficient use of land resulting in smaller networks of utilities and streets and thereby lowering development and housing costs; and
The proposed Planned Development provides for efficient use of land because it maintains the existing use. There is no new Town infrastructure required.
10. Please provide details on how the proposed Planned Unit Development provides quality design and environmentally sensitive development that respects surrounding established land use character and respects and takes advantage of a site's natural and man-made features, such as trees, estuaries, shorelines, special flood hazard area, and historic features.
The proposed Planned Development provides quality design and environmentally sensitive development because it is maintaining the existing open space and stormwater management facility onsite. The vegetated buffer in between the Sheetz and residential property will be increased along with the addition of a fence to prevent noise.
11. Other factors as the Board of Commissioners may determine to be relevant.

APPLICATION FOR
PLANNED DEVELOPMENT

OWNER'S CONSENT FORM

Name of Project: 416 SHEETZ ZEBULON Submittal Date: JUNE 2, 2025

OWNER'S AUTHORIZATION

I hereby give CONSENT to Sheetz, INC. (type, stamp or print clearly full name of agent) to act on my behalf, to submit or have submitted this application and all required material and documents, and to attend and represent me at all meetings and public hearings pertaining to the application(s) indicated above. Furthermore, I hereby give consent to the party designated above to agree to all terms and conditions which may arise as part of the approval of this application.

I hereby certify I have full knowledge the property I have an ownership interest in is the subject of this application. I acknowledge and agree that, pursuant to Section 2.2.15. of the Town of Zebulon Unified Development Ordinance, that lands subject to a Planned Development shall be subject to all the standards, conditions, and plans approved as part of that application. These standards, plans, and approved conditions are perpetually binding on the land as an amendment to this Ordinance and the Official Zoning Map and may only be changed in accordance with the procedures established in this Ordinance. Development located outside the Town of Zebulon's corporate limits shall comply with all Town policies related to annexation and the extension of utilities. I understand that all other applicable standards and regulations of the UDO will remain applicable to the subject lands unless specifically listed as conditions or deviations as part of this request. I understand that any false, inaccurate, or incomplete information provided by me, or my agent will result in the denial, revocation or administrative withdrawal of this application, request, approval or permits. I acknowledge that additional information may be required to process this application. I further consent to the Town of Zebulon to publish, copy or reproduce any copyrighted document submitted as a part of this application for any third party. I further agree to all terms and conditions, which may be imposed as part of the approval of this application.

Signature of Owner	Betty B. Ray *Print Name*	4/19/25 *Date*

CERTIFICATION OF PROPERTY OWNER

I hereby certify the statements or information made in any paper or plans submitted herewith are true and correct to the best of my knowledge. I understand this application, related material and all attachments become official records of the Planning Department of the Town of Zebulon, North Carolina, and will not be returned.

Signature of Owner	*Print Name*	2nd 4/19/25 *Date*

*Owner of record as shown by the Wake County Revenue Department (www.wakegov.com). An option to purchase does not constitute ownership. If ownership has been recently transferred, a copy of the deed must accompany this form.

CONCEPT PLAN REQUIREMENTS

Every applicant requesting Planned Development approval shall submit **8 copies** and **1 pdf (e-mail or USB Drive)** of a concept plan drawing with the application for a Planned Development. The concept plan shall contain sufficient information to adequately determine the type of development being proposed. The concept plan drawing shall include, at a minimum, the following features unless otherwise specified by the Planning Department:

ITEM		CHECK IF SUBMITTED
1.	Plot plan showing all existing and planned structures, building setback lines, perimeter boundaries, and easements.	✔
2.	Elevation drawings of all buildings indicating the proposed exterior finish materials.	✔
3.	Landscaping plan, lighting, fencing, screening, and walls, indicating all heights and locations.	✔
4.	Location of all ingress and egress.	✔
5.	Off-street parking and loading facilities, with calculations showing how the quantities were obtained.	✔
6.	All pedestrian walks and open areas for use by residents, tenants, or the public.	✔
7.	Proposed land uses indicating areas in square feet.	✔
8.	The location and types of all signs, including lighting and heights, with elevation drawings.	✔
9.	Existing and/or proposed street names.	✔
10.	Proposed potable or reuse water, wastewater connections, and storm sewer line; proposed grading and drainage patterns; proposed water and sewer allocations.	✔
11.	Such additional items and conditions, including design standards as the Planning Board and Board of Commissioners deems necessary.	N/A
12.	Trip generation data and TIA if applicable in accordance with Section 6.13 of the UDO.	✔

PROPOSED USES

An application has been duly filed requesting that the property described in this application be rezoned from HC (HEAVY COMMERCIAL) to PD (PLANNED DEVELOPMENT). It is understood and acknowledged that if the property is rezoned as requested, the property described in this request will be perpetually bound to the use(s) authorized and subject to such conditions as imposed, unless subsequently changed or amended as provided for in the Unified Development Ordinance. It is further understood and acknowledged that final plans for any specific development to be made pursuant to any such Planned Development shall be submitted for site or subdivision plan approval. Use additional pages as needed.

The Rezoned Lands may be used for, and only for, the uses listed immediately below. The permitted uses are subject to the limitations and regulations stated in the Use Table and any additional limitations or regulations stated below. For convenience, some relevant sections of the Unified Development Ordinance may be referenced; such references do not imply that other sections of the Unified Development Ordinance do not apply.

1.	CONVENIENCE STORE (WITH GASOLINE SALES)	**25.**	
2.		**26.**	
3.		**27.**	
4.		**28.**	
5.		**29.**

20.		**44.**	
21.		**45.**	
22.		**46.**	
23.		**47.**	
24.		**48.**	

PROPOSED DEVELOPMENT CONDITIONS

The applicant hereby requests that the Zebulon Board of Commissioners, pursuant to Section 3.3.5 of the Unified Development Ordinance, approve the Proposed Planned Development with above listed use(s), subject to the following condition(s), requested deviations, and proposed alternative means of compliance. (Attach additional pages as needed)

Condition #1:
Modification from 5.3.2.3.a&b of Mixed-Use Design Standards:
The building will be configured as shown on the site plan.

Condition #2:
Modification from 5.3.2.4.a
The building will occupy approximately 25% of the frontage along Pearces Road.
The building will occupy approximately 50% of the frontage along N Arendell Avenue (NC 96).

Condition #3:
Modification from 5.3.2.6.a&b
A drive aisle and parking rows are proposed between the building and the N Arendell Avenue (NC 96).

Condition #4:
Modification from 5.3.2.8.b
Alternative transparency requirements are provided along Pearces Road.

Condition #5:
Modification from 5.3.2.12
A pick-up window is proposed with this development.

Condition #6:
Modification from 5.6.12.D.1
The street buffer along Pearces Road is 8' All other buffer requirements are met. Curb line is consistent with existing conditions.

Condition #7:
Modification from Table 5.6.10.C
The buffer along the adjacent commercial property is 3 feet. All other buffer requirements are met. Curb line is consistent with existing conditions.

Condition #8:
Modification from Table 5.11.9.M
There will be two wall signs on the front building facade.

PROPOSED USES

An application has been duly filed requesting that the property described in this application be rezoned from HC (HEAVY COMMERCIAL) to PD (PLANNED DEVELOPMENT). It is understood and acknowledged that if the property is rezoned as requested, the property described in this request will be perpetually bound to the use(s) authorized and subject to such conditions as imposed, unless subsequently changed or amended as provided for in the Unified Development Ordinance. It is further understood and acknowledged that final plans for any specific development to be made pursuant to any such Planned Development shall be submitted for site or subdivision plan approval. Use additional pages as needed.

The Rezoned Lands may be used for, and only for, the uses listed immediately below. The permitted uses are subject to the limitations and regulations stated in the Use Table and any additional limitations or regulations stated below. For convenience, some relevant sections of the Unified Development Ordinance may be referenced; such references do not imply that other sections of the Unified Development Ordinance do not apply.

1.	CONVENIENCE STORE (WITH GASOLINE SALES)	**25.**	
2.	DRIVE THROUGH / PICK-UP WINDOW	**26.**

NOTICE OF NEIGHBORHOOD MEETING

This document is a public record under the North Carolina Public Records Act and may be published on the Town's website or disclosed to third parties.

Dear Neighbor:
You are invited to a neighborhood meeting to review and discuss the development proposal at:

1406 N ARENDELL AVENUE, ZEBULON, NC 27597 (Address) | 2706011220 (Pin Numbers)

in accordance with the Town of Zebulon Neighborhood Meeting procedures. This meeting is intended to be a way for the applicant to discuss the project and review the proposed plans with adjacent neighbors and neighborhood organizations before the submittal of an application to the Town. This provides neighbors an opportunity to raise questions and discuss any concerns about the impacts of the project before it is officially submitted. Once an application has been submitted to the Town, it may be tracked using the Interactive Development Map located on the Town of Zebulon website at:
https://www.townofzebulon.org/planning/interactive-development-map

A Neighborhood Meeting is requested because this project will include:

- ☐ Conditional Rezoning
- ☑ Planned Unit Development
- ☐ Site Plan within the Downtown Core or Downtown Periphery Zoning Districts
- ☐ Zoning Map Amendment (results in more intensive uses or increased density)
- ☐ Special Use Permit (Quasi-Judicial Hearing)
  *Quasi-Judicial Hearing: The Board of Commissioners cannot discuss the project prior to the public hearing.

The following is a description of the proposed (also see attached map(s) and/or plan sheet(s)):
Redevelopment of the existing Sheetz site. The building and site will be demoed and rebuilt to include a 6,139 SF building with a pickup window and 1 additional MPD. The existing car wash will be removed. New landscaping will be included.

Estimated Submittal Date: APRIL 30, 2025

MEETING INFORMATION:

Property Owner(s) Name(s) OLDE HERITAGE PROPERTIES LLC

Applicant(s) KIMLEY-HORN AND ASSOCIATES, INC. ON BEHALF OF SHEETZ, INC.

Contact Information (e-mail/phone) HEATHER.TIMOTHY@KIMLEY-HORN.COM

Meeting Address: ZEBULON COMMUNITY CENTER; 301 S ARENDELL AVE, ZEBULON, NC 27597

Date of Meeting: THURSDAY, APRIL 17, 2025

Time of Meeting: 6:00 - 8:00 PM

**Meetings shall occur between 5:00 p.m.-9:00 p.m. on a Monday through Thursday (excluding Town recognized holidays). If you have questions about the general process for this application, please contact the Planning Department at 919-823-1809. You may also find information about the Zebulon Planning Department and on-going planning efforts at https://www.townofzebulon.org/services/planning

Comment/Question: Traffic, Sidewalks, Noise, Smell,
Move Air Tanks, Move Picnic Tables, Turn around traffic in
Townhomes is high + the Road wear & tear is Paid by homeowners
its a Private Rd.

Name: Bryan Hicks (Wake County ABC)
Email / Phone: bhicks@wakeabc.com 919-832-2726
Comment/Question:
Concern exists on (1) the Wake ABC dumpster as it appears access is lost from the Sheetz property. We are good transitioning to 96 gallon carts if Town permits. and (2) notification of any changes to access to our property (ingress/egress) as a cross access agreement exists. (3) out of statements from Neighbors, Wake ABC is fine having the air pumps along our property. →

Jordan Brewer and Matt Gross rule! And they didn't pay me to say that.

Olde Heritage Properties LLC

Sheetz, Inc.

Kimley-Horn and Associates, Inc. on Behalf of Sheetz, Inc.

To Whom it May Concern:

I'm writing to express my concerns of the proposed redevelopment of the Sheetz located on Arendell Ave. and Pearce Rd. in Zebulon NC.

(1) Safety & Privacy: My property, (113 Nostalgia Ln) sits directly behind and in between the car wash and the ABC store. Non-residents of Wakelon Townhomes have now made a path thru the woods adjacent to my property to gain access to the Sheetz. This has become very alarming and a safety concern.

Solution: A concrete divider wall to limit pedestrian traffic of non-residents.

(2) Noise: The proposed redevelopment would significantly increase the already high volume of noise. Increased construction noise during the development process could disrupt our daily living and privacy.

Solution: A concrete divider wall that will absorb some of the noise. Limit the hours of operation, particularly for the food pickup window.

(3) Increased Traffic: The proposed redevelopment would also drastically increase the already congested area.

Solution: Close the entrance on Pearce Rd. and add a second entrance on Arendell Ave. Widen Pearce's Rd. and add turn lanes to accommodate the increase of traffic.

Thank you for taking the time to review my concerns. I hope you consider the potential implications of this redevelopment.

Sincerely,

M. Ann Harper

Subject: Wakelon Townhomes Community Feedback for Sheetz Redevelopment Plan

Categories: External

Hello Heather -

Thanks to Chris, Tom and yourself for presenting the initial plans for the Sheetz demolition and re-build to some of the residents here at Wakelon Townhomes in Zebulon last night. It was very helpful, and I hope that we can put together a plan that will be satisfactory to everyone.

Below I've pasted my email to our residents, and two responses received that you can add to your community feedback. I didn't simply forward the whole chain since there is a lot of extraneous stuff that would just clog up your email (out of office replies, undeliverable addresses etc.).

The responses were from Gina Pace of 305 Nostalgia Ln and Courtney Parker West of 301 Nostalgia Ln. Let me know if you need any other information.

Sincerely,

Domenick Schilling
President, Wakelon Townhomes HOA
207 Nostalgia Ln

Hello All -

Everyone should have received the notice regarding the changes at the Sheetz station. PLEASE READ IT! There are plans to demolish the Sheetz station and rebuild it with more pumps and a drive-thru pick up window. This means more traffic and more noise and more people cutting through the neighborhood or using it as a turn around.

There will be a meeting on Thursday 4/17 from 6:00pm - 8:00pm to ask questions and express concerns. You can just stop in anytime, you don't need to be there right at 6:00 or stay for the entire time. Please make plans to go if at all possible.

Some ideas I thought about:

1. A concrete divider wall (not a landscape buffer) between Wakelon Townhomes and Sheetz.
2. Close off the entrance to Sheetz from Pearces Rd and add another entrance from Arendell Ave.
3. Widen Pearces Rd and add turn lanes to accommodate the increased # of cars trying to get in and out of Sheetz.
4. Limit the hours of operation, particularly for the food pick up window.

We need as many residents as possible to show up on Thursday and make our voices heard!

If you have more questions or did not receive the notice, please let me know. I hope to see everyone at the meeting Thursday evening.

Sincerely,

Domenick

Hey Domenick!

I am unable to make the meeting since I am out of state BUT I wanted to add a suggestion to your list, expanding on some of your ideas.

They would DEFINITELY need to close off the entrance to Pearce's Rd. or only make it accessible for vehicles coming toward Arendell (like an entrance for cars that are turning right only but requiring them to exit at a new stop light, SPECIFICALLY to enter and exit Sheetz. They could make their new stop light further down the road and mimic the one down in Nashville with turning lanes and a longer driveway.

That's all I can think of at the moment.. This has got my brain scrambled! I love your ideas and appreciate you fighting for our little community!

Thanks so much!

I cannot make it tonight, but I cosign the suggestions above. Please keep those of us unable to attend informed on how it goes! Thank you for representing community interests.
Best,
Courtney

SUMMARY OF DISCUSSION FROM THE NEIGHBORHOOD MEETING

This document is a public record under the North Carolina Public Records Act and may be published on the Town's website or disclosed to third parties.

Project Name: 416 SHEETZ ZEBULON

Meeting Address: ZEBULON COMMUNITY CENTER; 301 S ARENDELL AVE, ZEBULON, NC 27597

Date of Meeting: THURSDAY, APRIL 17, 2025 **Time of Meeting:** 6:00 - 8:00 PM

Property Owner(s) Names: OLDE HERITAGE PROPERTIES LLC

Applicants: KIMLEY-HORN AND ASSOCIATES, INC. ON BEHALF OF SHEETZ, INC.

Please summarize the questions/comments and your response from the Neighborhood Meeting in the spaces below (attach additional sheets, if necessary). Please state if/how the project has been modified in response to any concerns. The response should not be "Noted" or "No Response". There has to be documentation of what consideration the neighbor's concern was given and justification for why no change was deemed warranted.

Question/ Concern #1 NOISE

Applicant Response:

SHEETZ WILL IMPLEMENT A NOISE BARRIER FENCE ALONG THE PROPERTY LINE THAT IS ADJACENT TO THE NEIGHBORHOOD. SHEETZ WILL ALSO RELOCATE ONE OF THE AIR MACHINES TO THE OPPOSITE SIDE OF THE SITE AS WELL AS THEIR DUMPSTER. THE ABC DUMPSTER MUST REMAIN AS-IS DUE TO DELIVERIES (ONCE A MONTH). THE PICK-UP WINDOW WILL NOT HAVE ANY SPEAKERS.

Question/ Concern #2 CUT THROUGH - THE NEIGHBORS ARE CONCERNED WITH PEOPLE WALKING THROUGH THE NEIGHBORHOOD TO GO TO SHEETZ.

Applicant Response:

THE NOISE BARRIER FENCE WILL ALSO HELP LIMIT PEOPLE CUTTING THROUGH THE NEIGHBORHOOD TO GO TO SHEETZ.

Question/ Concern #3 TRAFFIC - THE NEIGHBORS ARE CONCERNED WITH VEHICLES BLOCKING THEIR ACCESS POINT, SHEETZ CUSTOMERS COMING INTO THEIR NEIGHBORHOOD TO TURNAROUND SO THEY CAN MAKE A RIGHT INTO THE SHEETZ, AND ONLY 1 LEFT TURN LANE AT THE INTERSECTION.

Applicant Response:

SHEETZ UNDERSTANDS THAT THE TOWN HAS PLANS TO IMPROVE THE ROAD ADJACENT TO THE SITE. THE NEIGHBORS HAVE BEEN AWARE OF THESE FUTURE PLANS. RECENT SIGNAL TIMING UPDATES HAVE BEEN IMPLEMENTED PER NCDOT CONFIRMATION WHICH WILL HELP THE CONGESTION. SHEETZ IS PROPOSING TO ADD A "DO NOT BLOCK INTERSECTION" SIGN. KIMLEY-HORN HAS CONFIRMED WITH NCDOT THAT THE EXISITNG MEDIAN ALONG NC 96 CANNOT BE CUT TO ALLOW VEHICLES TO MAKE A LEFT INTO THE SHEETZ FROM NC 96.

Question/ Concern #4 FUEL DISPENSER LOCATION AND UNDERGROUND STORAGE TANKS

Applicant Response:

THE NEW ORIENTATION OF THE BUILDING AND FUEL PUMPS ARE TO COMPLY WITH CURRENT CODE, UDO 4.3.5.O.A "PUMP ISLANDS MAY NOT BE LOCATED BETWEEN A BUILDING AND ANY ADJACENT STREET RIGHTS-OF-WAY." SHEETZ WILL USE THEIR NEWEST TECHNOLOGY AND STANDARDS OF UNDERGROUND STORAGE TANKS. THE APOR RECOVERY SYSTEMS WILL BE IMPLEMENTED WHICH WILL HELP LIMIT ANY POTENTIAL SMELL FROM THE FUEL.

QUESTION/CONCERN #5:
LIGHTING

APPLICANT RESPONSE:
SHEETZ IS IMPLEMENTING THEIR NEWEST TECHNOLOGY AND STANDARDS OF LIGHTING DESIGN WHICH WILL HELP LIGHT POLLUTION AND LIMIT LIGHTING TO JUST THE SHEETZ SITE.

QUESTION/CONCERN #6:
CONSTRUCTION

APPLICANT RESPONSE:
SHEETZ HAS COMPLETED SEVERAL SIMILAR REBUILD PROJECTS. THEY LOOK TO SHORTEN THE CONSTRUCTION SCHEDULE AS MUCH AS POSSIBLE.

QUESTION/CONCERN #7:
PICK-UP WINDOW

APPLICANT RESPONSE:
THE PICK-UP WINDOW WILL OPERATE 24/7 PER SHEETZ STANDARDS WITH PROVIDING CONVENIENCE FOR THE CUSTOMERS. THERE WILL BE NO SPEAKER ASSOCIATED WITH THE PICK-UP WINDOW.

ZEBULON

NEIGHBORHOOD MEETINGS

AFFIDAVIT OF CONDUCTING A NEIGHBORHOOD MEETING, SIGN-IN SHEET AND ISSUES/RESPONSES SUBMITTAL

This document is a public record under the North Carolina Public Records Act and may be published on the Town's website or disclosed to third parties.

I, Christopher O. Bostic, do hereby declare as follows:
Print Name

1. I have conducted a Neighborhood Meeting for the proposed Rezoning, Major Site Plan, Master Subdivision Plan, or Special Use Permit.

2. The meeting invitations were mailed to the Zebulon Planning Department, all property owners within 300 feet of the subject property and any neighborhood association that represents citizens in the area via first class mail a minimum of 10 days in advance of the Neighborhood Meeting.

3. The meeting was conducted at 301 S. Arendall Ave, Zebulon NC (location/address) on Thurs, April 17 (date) from 6:00 pm (start time) to 8:00 pm (end time).

4. I have included the mailing list, meeting invitation, sign-in sheet, issue/response summary, and zoning map/reduced plans with the application.

5. I have prepared these materials in good faith and to the best of my ability.

9. TITLE TO THAT PORTION OF SUBJECT PROPERTY LYING WITHIN THE RIGHT(S) -OF-WAY OF NC 96 HIGHWAY (ZEBULON ROAD).
-PORTION WITHIN THE R/W OF ARENDELL RD (NC 96) SHOWN HEREON

10. DEED OF TRUST TO TRUSTEE(S) FOR CAPITAL BANK IN THE AMOUNT OF $1,108,000.00, RECORDED IN BOOK 12134, PAGE 197; ASSUMPTION AND MODIFICATION AGREEMENT RECORDED IN BOOK 13270, PAGE 2109; ASSIGNMENT OF RENTS RECORDED IN BOOK 13270, PAGE 2118; AND MODIFICATION AGREEMENT RECORDED IN BOOK 13954, PAGE 2509, WAKE COUNTY REGISTRY.
-NOT A MATTER OF SURVEY

11. DEED OF TRUST TO TRUSTEE(S) FOR CAPITAL BANK, N.A. IN THE AMOUNT OF $100,000.00, RECORDED IN BOOK 14867, PAGE 2020, WAKE COUNTY REGISTRY.
-EXHIBIT B THEREIN REFERENCES EXCEPTIONS ALREADY SHOWN AND LISTED HEREON

12. DEED OF TRUST TO TRUSTEE(S) FOR NEW REPUBLIC SAVINGS BANK IN THE AMOUNT OF $785,000.00, RECORDED IN BOOK 14961, PAGE 404, WAKE COUNTY REGISTRY.
-NOT A MATTER OF SURVEY

13. ANY ENCROACHMENT, ENCUMBRANCE, VIOLATION, VARIATION, OR ADVERSE CIRCUMSTANCE AFFECTING THE TITLE THAT WOULD BE DISCLOSED BY AN ACCURATE AND COMPLETE LAND SURVEY OF THE LAND. THIS EXCEPTION DELETES THE COVERAGE PROVIDED UNDER COVERED RISK 2(C). (UPON RECEIPT OF A CURRENT SURVEY AND SURVEYOR'S REPORT, THIS EXCEPTION WILL BE DELETED OR AMENDED IN ACCORDANCE WITH THE FACTS DISCLOSED THEREBY.)
-SHOWN HEREON IF FOUND DURING COURSE OF SURVEY

14. ANY LIEN, OR RIGHT TO A LIEN, FOR SERVICES, LABOR OR MATERIALS HERETOFORE OR HEREAFTER FURNISHED, IMPOSED BY LAW AND NOT SHOWN ON THE PUBLIC RECORD. (THIS EXCEPTION MAY BE DELETED FROM THE POLICY ONLY UPON SATISFACTION OF REQUIREMENT #5 IN SCHEDULE BI HEREIN.)
-NOT A MATTER OF SURVEY

15. MECHANICS LIEN AGENT ENTRY NUMBER_____AND ALL RELATED RIGHTS TO FILING OR CURRENT FILINGS BY ANY POTENTIAL LIEN CLAIMANTS, INCLUDING DESIGN PROFESSIONALS. (THIS EXCEPTION MAY BE DELETED FROM THE POLICY ONLY UPON SATISFACTION OF REQUIREMENT #5 IN SCHEDULE BI HEREIN.)
-NOT A MATTER OF SURVEY

16. NOTICE: CLOSING PROTECTION INSURANCE COVERING THE TRANSACTION INSURED BY THIS POLICY IS NOT PROVIDED.
-NOT A MATTER OF SURVEY

PROPERTY DESCRIPTION (PER TITLE COMMITMENT)

LYING AND BEING IN WAKE COUNTY AND IDENTIFIED IN THE 2023 WAKE COUNTY GIS RECORDS UNDER PIN #2706-01-1220 AND DESCRIBED AS ALL OF LOT 2, CONTAINING 2.504 GROSS ACRES, AS SHOWN ON THAT MAP RECORDED IN BOOK OF MAPS 2007, PAGE 1039, WAKE COUNTY REGISTER OF DEEDS.

DEMOLITION NOTES

1. THE CONTRACTOR IS RESPONSIBLE FOR OBTAINING AND/OR VERIFYING ALL LOCAL AND STATE PERMITS REQUIRED FOR DEMOLITION WORK HAVE BEEN OBTAINED.
2. THE CONTRACTOR SHALL INDEMNIFY AND HOLD HARMLESS THE OWNER AND/OR ENGINEER FOR ANY AND ALL INJURIES AND/OR DAMAGES TO PERSONNEL, EQUIPMENT AND/OR EXISTING FACILITIES IN THE DEMOLITION AND CONSTRUCTION DESCRIBED IN THE PLANS AND SPECIFICATIONS.
3. EXISTING CONDITIONS AS DEPICTED ON THESE PLANS ARE GENERAL AND ILLUSTRATIVE IN NATURE AND DO NOT INCLUDE MECHANICAL, ELECTRICAL AND MISCELLANEOUS STRUCTURES. IT IS THE RESPONSIBILITY OF THE CONTRACTOR TO EXAMINE THE SITE AND BE FAMILIAR WITH EXISTING CONDITIONS PRIOR TO BIDDING ON THE DEMOLITION WORK FOR THIS PROJECT. IF CONDITIONS ENCOUNTERED DURING EXAMINATION ARE SIGNIFICANTLY DIFFERENT THAN THOSE SHOWN, THE CONTRACTOR SHALL NOTIFY THE ENGINEER IMMEDIATELY.
4. ALL EXISTING ABOVE AND BELOW GROUND STRUCTURES WITHIN THE LIMITS OF NEW CONSTRUCTION SHALL BE RAZED UNLESS NOTED OTHERWISE WITHIN THIS CONSTRUCTION SET, ARCHITECTURAL PLANS AND/OR PROJECT SPECIFICATIONS. THIS INCLUDES FOUNDATION SLABS, WALLS, AND FOOTINGS.
5. ALL DEMOLITION WASTE AND CONSTRUCTION DEBRIS SHALL BE REMOVED BY THE CONTRACTOR AND DISPOSED OF IN A STATE APPROVED WASTE SITE AND IN ACCORDANCE WITH ALL LOCAL AND STATE CODES AND PERMIT REQUIREMENTS.
6. ALL UTILITY REMOVAL, RELOCATION, CUTTING, CAPPING AND/OR ABANDONMENT SHALL BE COORDINATED WITH THE APPROPRIATE UTILITY COMPANY.
7. THE BURNING OF CLEARED MATERIAL AND DEBRIS SHALL NOT BE ALLOWED UNLESS CONTRACTOR GETS WRITTEN AUTHORIZATION FROM THE LOCAL AUTHORITIES.
8. UTILITY CONTACTS ARE LISTED ON SHEET C-000.
9. EROSION AND SEDIMENTATION (E&S) CONTROL MEASURES AROUND AREAS OF DEMOLITION SHALL BE INSTALLED PRIOR TO INITIATION OF DEMOLITION ACTIVITIES. REFER TO THE E&S PLAN FOR DETAILS.
10. ASBESTOS OR HAZARDOUS MATERIALS, IF FOUND ON SITE, SHALL BE REMOVED BY A LICENSED HAZARDOUS MATERIALS CONTRACTOR. CONTRACTOR SHALL NOTIFY SHEETZ IMMEDIATELY IF HAZARDOUS MATERIALS ARE ENCOUNTERED.
11. CONTRACTOR SHALL PROTECT ALL CORNER PINS, MONUMENTS, PROPERTY CORNERS, AND BENCHMARKS DURING DEMOLITION ACTIVITIES. IF DISTURBED, CONTRACTOR SHALL HAVE DISTURBED ITEMS RESET BY A LICENSED SURVEYOR AT NO ADDITIONAL COST TO THE OWNER.
12. CONTRACTOR SHALL ADHERE TO ALL LOCAL, STATE, FEDERAL, AND OSHA REGULATIONS WHEN OPERATING DEMOLITION EQUIPMENT AROUND UTILITIES.

GRADING NOTES

1. ALL SITE WORK SHALL BE DONE IN ACCORDANCE WITH THE PLANS PREPARED BY KIMLEY-HORN, THE CURRENT REQUIREMENTS OF THE TOWN OF ZEBULON, THE APPLICABLE SECTIONS OF THE CITY OF RALEIGH, THE APPLICABLE SECTIONS OF THE NCDOT STANDARD SPECIFICATIONS FOR ROADWAY CONSTRUCTION, AND ALL OTHER PERTINENT FEDERAL AND STATE LAWS.
2. THE CONTRACTOR SHALL COMPLY AT ALL TIMES WITH APPLICABLE FEDERAL, STATE AND LOCAL LAWS, PROVISIONS, AND POLICIES GOVERNING SAFETY AND HEALTH.
3. THE CONTRACTOR SHALL BE RESPONSIBLE FOR EXAMINING THE AREAS AND CONDITIONS UNDER WHICH THE PROJECT IS TO BE CONSTRUCTED PRIOR TO THE SUBMISSION OF A BID. SUBMISSION OF A BID SHALL BE CONSTRUED TO MEAN THE CONTRACTOR HAS REVIEWED THE SITE AND IS FAMILIAR WITH CONDITIONS AND CONSTRAINTS OF THE SITE. IF DISCREPANCIES BETWEEN FIELD CONDITIONS AND DESIGN PLANS ARE DISCOVERED, CONTRACTOR SHALL NOTIFY OWNER AND ENGINEER IMMEDIATELY.
4. BEFORE EXCAVATION, ALL UNDERGROUND UTILITIES SHALL BE LOCATED IN THE FIELD BY THE PROPER AUTHORITIES. THE CONTRACTOR SHALL NOTIFY 811 "CALL BEFORE YOU DIG." THE LOCATION OF ALL UTILITIES AND UNDERGROUND STRUCTURES ARE APPROXIMATE AND MAY NOT ALL BE SHOWN. IT IS THE RESPONSIBILITY OF THE CONTRACTOR TO DETERMINE THE EXISTENCE AND EXACT LOCATION OF ALL UTILITIES AND UNDERGROUND STRUCTURES.
5. ALL EXISTING TREES, VEGETATION, PAVEMENTS, CONCRETE FOUNDATIONS, STRUCTURES AND ORGANIC TOPSOIL SHALL BE STRIPPED AND REMOVED FROM NEW CONSTRUCTION AREAS UNLESS NOTED OTHERWISE.
6. ALL SLOPES SHALL BE 2:1 (HORIZONTAL: VERTICAL) MAXIMUM UNLESS NOTED OTHERWISE. ALL SLOPES 3:1 OR GREATER SHALL BE PERMANENTLY STABILIZED WITH VEGETATION.
7. AN AS-BUILT DRAWING OF NEW UTILITY SERVICES MUST BE PREPARED BY THE CONTRACTOR AND SUBMITTED TO THE OWNER UPON COMPLETION OF THE PROJECT.
8. ALL AREAS NOT PAVED SHALL BE TOP SOILED, SEEDED, SODDED, MULCHED AND/OR LANDSCAPED UNLESS OTHERWISE NOTED IN THE CONSTRUCTION DRAWINGS, SITE SPECIFICATIONS OR INSTRUCTED BY THE OWNER.
9. CONTRACTOR SHALL REFER TO THE GEOTECHNICAL REPORT PREPARED BY THE GEOTECH ENGINEER PRIOR TO INITIATION OF ANY EARTHWORK ACTIVITY.
10. ALL ELEVATIONS SHOWN ARE REFERENCED TO BENCHMARKS ON THE PROJECT SURVEY AND SHALL BE FIELD VERIFIED BY THE CONTRACTOR AT GROUNDBREAKING.
11. ALL SPOT ELEVATIONS ARE REFERENCED TO THE FINISHED GROUND SURFACE UNLESS NOTED OTHERWISE.
12. CONTRACTOR SHALL REFERENCE DETAILED BUILDING PLANS FOR EXACT BUILDING DIMENSIONS, ELEVATIONS, AND UTILITY CONNECTION POINTS.
13. CONTRACTOR SHALL REFER TO OTHER PLANS WITHIN THIS CONSTRUCTION SET FOR OTHER PERTINENT INFORMATION.

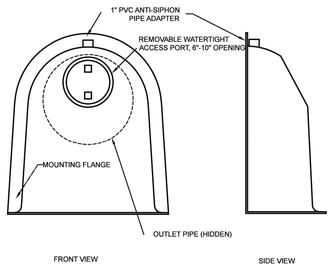
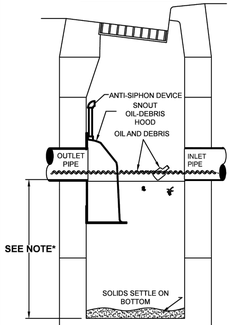
CONFIGURATION DETAIL



SNOUT OIL-WATER-DEBRIS SEPARATOR

TYPICAL INSTALLATION



*NOTE- SUMP DEPTH OF 36" MIN. FOR UP TO 12" ID PIPE OUTLET. FOR PIPES 15" ID AND ABOVE SUMP DEPTH OF 2.5 TO 3 TIMES PIPE ID RECOMMENDED (E.G. 5' DEEP for 24" PIPE)

NOTES:

1. ALL HOODS AND TRAPS FOR CATCH BASINS AND WATER QUALITY STRUCTURES SHALL BE AS MANUFACTURED BY:
   BEST MANAGEMENT PRODUCTS, INC.
   9 MATHEWS DRIVE, UNIT A1-A2.
   EAST HADDAM, CT 06423
   TOLL FREE: (800) 504-8008 OR (888) 434-0277, FAX: (877) 434-3197
   WEB SITE: www.bmpinc.com
   OR PRE-APPROVED EQUAL
2. ALL HOODS SHALL BE CONSTRUCTED OF A GLASS REINFORCED RESIN COMPOSITE WITH ISO GEL COAT EXTERIOR FINISH WITH A MINIMUM 0.125" LAMINATE THICKNESS.
3. ALL HOODS SHALL BE EQUIPPED WITH A WATERTIGHT ACCESS PORT, A MOUNTING FLANGE, AND AN ANTI-SIPHON VENT PIPE AND ELBOW AS DRAWN. (SEE CONFIGURATION DETAIL)
4. THE SIZE AND POSITION OF THE HOOD SHALL BE DETERMINED BY OUTLET PIPE SIZE AS PER MANUFACTURER'S RECOMMENDATION (SNOUT SIZE ALWAYS LARGER THAN PIPE SIZE).
5. THE BOTTOM OF THE HOOD SHALL EXTEND DOWNWARD A MINIMUM DISTANCE EQUAL TO 1/2 THE OUTLET PIPE DIAMETER WITH A MINIMUM DISTANCE OF 6" FOR PIPES <12" I.D.
6. THE ANTI-SIPHON VENT SHALL EXTEND ABOVE HOOD BY MINIMUM OF 3" AND A MAXIMUM OF 12" ACCORDING TO STRUCTURE CONFIGURATION.
7. THE SURFACE OF THE STRUCTURE WHERE THE HOOD IS MOUNTED SHALL BE FINISHED SMOOTH AND FREE OF LOOSE MATERIAL AND PIPE SHALL BE FINISHED FLUSH TO WALL.
8. ALL STRUCTURE JOINTS SHALL BE WATERTIGHT.
9. THE HOOD SHALL BE SECURELY ATTACHED TO STRUCTURE WALL WITH ¼" STAINLESS STEEL BOLTS AND OIL-RESISTANT GASKET AS SUPPLIED BY MANUFACTURER. (SEE INSTALLATION DETAIL)
10. INSTALLATION INSTRUCTIONS SHALL BE FURNISHED WITH MANUFACTURER SUPPLIED INSTALLATION KIT.
    INSTALLATION KIT SHALL INCLUDE:
    A. INSTALLATION INSTRUCTIONS
    B. PVC ANTI-SIPHON VENT PIPE AND ADAPTER
    C. OIL-RESISTANT CRUSHED CELL FOAM GASKET WITH PSA BACKING
    D. 3/8" STAINLESS STEEL BOLTS
    E. ANCHOR SHIELDS

CITY OF RALEIGH UTILITY NOTES

1. All materials & construction methods shall be in accordance with City of Raleigh design standards, details & specifications (reference: CORPUD Handbook, current edition)

2. Utility separation requirements:
   a) A distance of 100' shall be maintained between sanitary sewer & any private or public water supply source such as an impounded reservoir used as a source of drinking water. If adequate lateral separation cannot be achieved, ferrous sanitary sewer pipe shall be specified & installed to waterline specifications. However, the minimum separation shall not be less than 25' from a private well or 50' from a publicwell.
   b) When installing water &/or sewer mains, the horizontal separation between utilities shall be 10'. If this separation cannot be maintained due to existing conditions, the variation allowed is the water main in a separate trench with the elevation of the water main at least 18" above the top of the sewer & must be approved by the Public Utilities Director. All distances are measured from outside diameter to outside diameter.
   c) Where it isimpossible to obtain properseparation, or anytime a sanitary sewer passes over a watermain, DIP materials or steel encasement extended 10' on each side of crossing must be specified & installed to waterline specifications.
   d) 5.0' minimum horizontal separation is required between all sanitary sewer & storm sewer facilities, unless DIP material is specified for sanitary sewer.
   e) Maintain 18" min. vertical separation at all watermain & RCP storm drain crossings; maintain 18" min. vertical separation at all sanitary sewer & RCP storm drain crossings. Where adequate separations cannot be achieved, specify DIP materials & a concrete cradle having 6" min. clearance (per CORPUD details W- 41 & S-49).
   f) All other underground utilities shall cross water & sewer facilities with 18" min. vertical separation required.

3. Any necessary field revisions are subject to review & approval of an amended plan &/or profile by the City of Raleigh Public Utilities Department prior to construction.

4. Developer shall provide 30 days advance written notice to owner for any work required within an existing City of Raleigh Utility Easement traversing private property.

5. Contractor shall maintain continuous water & sewer service to existing residences & businesses throughout construction of project. Any necessary service interruptions shall be preceded by a 24-hour advance notice to the City of Raleigh Public Utilities Department.

6. SEWER BYPASS PUMPING – A bypass plan sealed by an NC Professional Engineer shall be provided to Raleigh Water prior to pumping operations for approval. The operations and equipment shall comply with the Public Utilities Handbook.

7. 3.0' minimum cover is required on all water mains & sewer force mains. 4.0' minimum cover is required on all reuse mains.

8. It is the developer's responsibility to abandon or remove existing water & sewer services not being used in redevelopment of a site unless otherwise directed by the City of Raleigh Public Utilities Department. This includes abandoning tap at main & removal of service from ROW or easement per CORPUD Handbook procedure.

9. Install 2" copper water services with meters located at ROW or within a 2'x2' Waterline Easement immediately adjacent. NOTE: it is the applicant's responsibility to properly size the water service for each connection to provide adequate flow & pressure.

10. Install 4" and 6" PVC sewer services as noted @ 1.0% minimum grade with cleanouts located at ROW or easement line & spaced every 75 linear feet maximum.

11. Pressure reducing valves are required on all water services exceeding 80 psi; backwater valves are required on all sanitary sewer services having building drains lower than 1.0' above the next upstreammanhole.

12. All environmental permits applicable to the project must be obtained from NCDWQ, USACE &/or FEMA for any riparian buffer, wetland &/or floodplain impacts (respectively) prior to construction.

13. NCDOT / Railroad Encroachment Agreements are required for any utility work (including main extensions & service taps) within state or railroad ROW prior to construction.

14. Grease Interceptor / Oil Water Separator sizing calculations & installation specifications shall be approved by the RW FOG Program Coordinator prior to issuance of a UC and/or Building Permit. Contact (919) 996-4516 or fog@raleighnc.gov for more information.

15. Cross-connection control protection devices are required based on the degree of health hazard involved as listed in Appendix B of the Rules Governing Public Water Systems in North Carolina.

16. The devices shall meet the American Society of Sanitary Engineering (SAAE) standards and be on the University of Southern California approval list.

17. The device and installation shall mee the guidelines of Appendix A – Guidelines and Requirements for the Cross Connection Program in Raleigh's Service Area.

18. The devices shall be installed and tested (both, initial and periodic testing thereafter) in accordance with the manufacturer's recommendations or the local cross connection control program, whichever is more stringent. Contact Cross.connection@raleighnc.gov for more information.

19. NOTICE for projects that involve an oversized main or urban main replacement. Any City reimbursement greater than $250,000.00 must undergo the public bidding process.

SHEETZ UTILITY NOTES

1. ALL SITE WORK SHALL BE DONE IN ACCORDANCE WITH THE PLANS PREPARED BY KIMLEY-HORN, THE CURRENT REQUIREMENTS OF THE TOWN OF ZEBULON AND THE CITY OF RALEIGH, THE APPLICABLE SECTIONS OF THE NCDOT STANDARD SPECIFICATIONS FOR ROADWAY CONSTRUCTION, AND ALL OTHER PERTINENT FEDERAL AND STATE LAWS.
2. THE CONTRACTOR SHALL COMPLY AT ALL TIMES WITH APPLICABLE FEDERAL, STATE AND LOCAL LAWS, PROVISIONS, AND POLICIES GOVERNING SAFETY AND HEALTH.
3. THE CONTRACTOR SHALL BE RESPONSIBLE FOR EXAMINING THE AREAS AND CONDITIONS UNDER WHICH THE PROJECT IS TO BE CONSTRUCTED PRIOR TO THE SUBMISSION OF A BID.
4. BEFORE EXCAVATION, ALL UNDERGROUND UTILITIES SHALL BE LOCATED IN THE FIELD BY THE PROPER AUTHORITIES. THE CONTRACTOR SHALL NOTIFY 811 "CALL BEFORE YOU DIG." THE LOCATION OF ALL UTILITIES AND UNDERGROUND STRUCTURES ARE APPROXIMATE AND MAY NOT ALL BE SHOWN. IT IS THE RESPONSIBILITY OF THE CONTRACTOR TO DETERMINE THE EXISTENCE AND EXACT LOCATION OF ALL UTILITIES AND UNDERGROUND STRUCTURES.
5. IT IS THE RESPONSIBILITY OF THE CONTRACTOR TO BID AND PERFORM ALL UTILITY WORK IN COMPLIANCE TO ALL APPLICABLE LOCAL AND STATE CODES AND REGULATIONS.
6. THE CONTRACTOR SHALL BE RESPONSIBLE FOR ALL FEES ASSOCIATED WITH THE INSTALLATION, INSPECTING, TESTING AND FINAL ACCEPTANCE OF ALL PROPOSED UTILITY CONSTRUCTION UNLESS OTHERWISE COORDINATED BEFOREHAND WITH SHEETZ.
7. CONTRACTOR SHALL COORDINATE WITH THE APPROPRIATE UTILITY COMPANY ON THE ADDITION, REMOVAL AND/OR RELOCATION OF UTILITIES AND UTILITY POLES AND THE EXTENSION OF ALL PROPOSED UTILITIES TO THE SHEETZ PROJECT STRUCTURES.
8. ALL UTILITIES SHALL BE INSTALLED IN ACCORDANCE WITH THE SPECIFICATIONS OF THE RESPECTIVE UTILITY COMPANY. IT IS THE RESPONSIBILITY OF THE CONTRACTOR TO ENSURE ALL UTILITIES ARE INSTALLED CORRECTLY TO MEET PROJECT REQUIREMENTS WHETHER PERFORMED BY THE CONTRACTOR OR NOT.
9. AN AS-BUILT DRAWING OF NEW UTILITY SERVICES SHALL BE PREPARED BY THE CONTRACTOR AND SUBMITTED TO THE OWNER UPON COMPLETION OF THE PROJECT.
10. UTILITY COMPANIES AND CONTACTS ARE LISTED ON SHEET C-000.
11. CONDUIT LOCATIONS TO FREESTANDING SIGNS AND SITE LIGHT POLES TO BE COORDINATED WITH SHEETZ CONSTRUCTION MANAGER.
12. CONTRACTOR SHALL COORDINATE AND VERIFY WITH SHEETZ CONSTRUCTION MANAGER ON LOCATION AND SIZE OF THE STORE GREASE TRAP. GREASE TRAP SHALL BE PROVIDED WITH "T" PIPE IN OUTFLOW CHAMBER. ALL SANITARY SEWER PIPE SHALL BE SDR-35 PVC UNLESS OTHERWISE NOTED.
13. CONTRACTOR SHALL COORDINATE WITH SHEETZ CONSTRUCTION MANAGER AND SHEETZ IT DEPARTMENT ON THE CONDUIT ROUTE TO STORE FOR TELE/COMMUNICATION SERVICES.
14. CONTRACTOR SHALL REFER TO OTHER PLANS WITHIN THIS CONSTRUCTION SET FOR OTHER PERTINENT INFORMATION.

ATTENTION CONTRACTORS

The Contractor responsible for the extension of water, sewer, and/or reuse, as approved in these plans, is responsible for contacting the Infrastructure Inspections Division and schedule a Pre-construction meeting on the Development Portal prior to beginning any construction. Raleigh Water must be contacted at (919) 996-4540 at least twenty-four hours prior to beginning any work activity around critical water and sewer infrastructure.

Failure to notify City Departments in advance of beginning construction, will result in the issuance of monetary fines, and require reinstallation of any water or sewer facilities not inspected as a result of this notification failure.

Failure to call for Inspection, install a downstream plug, have permitted plans on the jobsite, or any other violation of City of Raleigh Standards will result in a fine and possible exclusion from future work in the City of Raleigh

SEPTEMBER 2025

KHA PROJECT NO. 110529004

PLANNED DEVELOPMENT NARRATIVE

TABLE OF CONTENTS

1.0 INTRODUCTION

The proposed project is the redevelopment of the existing Sheetz site located at 1406 N Arendell Avenue in Zebulon (PIN 2706011220). Maintaining the commercial use is consistent with the current Town of Zebulon Comprehensive Land Use Plan (CLUP), as the property is designated General Commercial (GC). As noted in the CLUP, the current Heavy Commercial (HC) zone is closely associated with GC. The GC designation "is for properties in commercial retail, office and service uses, primarily along portions of major roadway corridors within the community for high visibility and accessibility[.]" The primary land use types in the GC designation include "automobile service related enterprises (e.g., gas stations)." This application is consistent with CLUP and the proposed use directly aligns with the GC designation.

The building and site will be demolished and rebuilt to include a 6,139 SF building with a pick-up window and one additional MPD (two additional fueling stations). The existing car wash will be removed. The new pick-up window has triggered the Planned Development application process.

2.0 PERMITTED USES

This site is zoned Heavy Commercial (HC) per the Town of Zebulon Unified Development Ordinance (UDO) amended April 17, 2025. The proposed principal use, convenience store (with gasoline sales), and the proposed accessory use, drive through (pick-up window), are both permitted by-right in this zone.

The convenience store (with gasoline sales) principal use is subject to the specific standards from 4.3.5.Q:

1. Location of fuel pump islands
    a. Pump islands may not be located between a building and any adjacent street right-of-way. ***Applicant is proposing a condition related to this standard. See Section 10.0 Conditions.***
    b. Pump islands shall be at least 10 feet from any lot line and 12 feet from any principal building. Canopies over the pump islands may be located within 10 feet of a lot line. ***Project in compliance.***
2. Location of fuel tanks
    a. Gasoline and fuel storage tanks shall be located a minimum of 20 feet from any lot line or building. ***Project in compliance.***

The drive through (pick-up window) accessory use is subject to the specific standards from 4.4.7.I:

1. Outdoor speakers associated with a drive-through shall be at least 50 feet from any lot with a residential zoning district designation. ***N/A – no outdoor speakers associated with pick-up window.***
2. Drive-through windows, menus, or order boxes shall not be located on the front façade of the building they serve. ***Project in compliance.***
3. Drive-through facilities shall be designed so as not to obstruct the movement of pedestrians along sidewalks, through areas intended for public use, or between the building entrance and customer parking spaces. ***Project in compliance.***
4. Canopies or other features installed over a drive through window shall maintain common roof lines and materials with the principal structure. ***Project in compliance.***
5. New construction of drive-throughs shall conform to the mixed-use design standards in section 5.3.2. ***N/A – per coordination with the Town, this project will use the Commercial Design Standards as the basis of reference.***

3.0 ZONING REQUIREMENTS

The site is subject to the following district dimensional standards of its existing zone, Heavy Commercial (HC), per UDO Section 3.4.4:

- Minimum Lot Area: 6,000 SF
- Minimum Lot Width: 50 FT
- Maximum Lot Coverage: 80%
- Maximum Building Height: 50 FT
- Minimum (Building) Street Setback 30 FT
    - ***Applicant is proposing a condition related to this standard. See Section 10.0 Conditions for Pearces Rd because of trash enclosure.***
- Minimum (Building) Side Setback: 5 FT
- Minimum (Building) Rear Setback: 25 FT

The site is subject to the following perimeter and streetscape buffer requirements per UDO Sections 5.6.10 and 5.6.12:

- Minimum Perimeter Buffer (PIN 2706012606) 30 FT
- Minimum Perimeter Buffer (PIN 1796919353) 10 FT
    - ***Applicant is proposing a condition related to this standard. See Section 10.0 Conditions which notes 3 FT buffer proposed to maintain existing curb lines.***
- Minimum Streetscape Buffer: 15 FT
    - ***Applicant is proposing a condition related to this standard. See Section 10.0 Conditions which notes 0 FT buffer for Pearces Rd and N Arendell Ave to maintain existing curb lines. Applicant is exempt from the streetscape buffer requirement since the primary building façade is "visible from the arterial or collector street right-of-way (UDO Section 5.6.12.C.1)."***

The project proposes the following additional dimensional standards as required for Planned Development (PD) District applications per UDO Section 3.5.6.B.6:

- Maximum Individual Building Size 10,000 SF
- Floor Area Ratio 0.10 MAXIMUM

The site has adequate parking per UDO Section 5.8.4. 45 spaces have been provided, meeting the required standard of 1 space per 200 sf of a "Convenience Store (with gasoline sales)" which equates to 30 spaces.

4.0 ARCHITECTURAL STANDARDS

The architecture of the proposed building will follow all Commercial Design Standards, except where Applicant has proposed targeted conditions, as detailed in Section 10.0 Conditions. Appendix B provides the proposed building elevations with fenestration calculations.

The front building façade is the primary building wall. There are two secondary building walls, both adjacent to the front building façade. The pick-up window-side building wall is a tertiary wall.

5.0 SIGNAGE

Signage has been provided per UDO Section 5.11. There is one proposed wall mounted sign on each building façade. There is one proposed ground sign and one flag near the intersection of N Arendell

Avenue and Pearces Road. Additional wall mounted signage is provided on the ends of the fuel canopy and on the order pickup clearance bar.

6.0 STORMWATER MANAGEMENT

The proposed development will meet all applicable Town of Zebulon and North Carolina requirements through the decrease of impervious surfaces. The stormwater controls in the existing condition are to remain and be maintained by owner. The majority of the proposed site outfalls to the existing wet pond on the north of the site which is then conveyed to the rock swale along N Arendell Avenue within the North Carolina Department of Transportation (NCDOT) right-of-way.

7.0 OPEN SPACE

This site shall comply with minimum open space set-aside requirements as defined in Section 5.7.4 where commercial open space is required to be 3%. This site complies with the open space through the use of the stormwater detention facility as passive open space which makes up 3.6% of the site area.

8.0 UTILITIES

Sheetz will demolish and replace the existing water, sanitary sewer, and storm laterals onsite.

- A proposed water lateral connects the proposed building to the main off of Pearces Road.
- A proposed sanitary lateral and sanitary lateral with a grease trap connects to the main off of Pearces Road.
- There are multiple stormwater pipes proposed on site. All proposed stormwater pipes convey water from the site via curb inlets to the existing wet pond north of the site. This water is then conveyed to the rock swale along N Arendell Avenue which is consistent with existing drainage patterns.

This project will meet the 60 points required for the Utility Allocation Policy by the following:

- 40 base points for single use retail
- 3 points for abatement of any existing non-conforming structures
- 2 points for enhanced buffer landscaping
- 10 points for installation of native shade tree species
- 1 point for deck/patio – more than 1000 square feet
- 2 points for canopy including fixed permanent seating
- 1 point for permanent tables with shade cover
- 1 point for artist-design bicycle racks

9.0 TRANSPORATION IMPACT ANALYSIS

A traffic impact analysis was completed by Kimley-Horn dated June 1, 2025 and is attached in Appendix C.

NCDOT TIP project U-5118 FB proposes to construct an additional southbound through lane along NC 96 beginning approximately 830 feet north of the intersection of NC 96 at Pearces Road and ending at US 64-264 WB Ramps/Dogwood Drive. At the intersection of NC 96 at Pearces Road, the westbound right lane is expected to be restriped to a shared left/right lane and the existing traffic signal is expected to be modified to accommodate these improvements. While this project was considered for inclusion during scoping discussions with the Town, it was ultimately excluded in order to provide a conservative analysis of the intersection of NC 96 at Pearces Road.

All study intersections are expected to operate with acceptable levels-of service and, based on SimTraffic observations, maximum queues are expected to increase minimally with the redevelopment of the Sheetz. Therefore, no improvements are recommended with the proposed expansion.

10.0 CONDITIONS

This project is subject to the following conditions:

1. The fuel pump canopy island shall be located between the proposed building and N. Arendell Avenue (NC 96).

   Summary of Proposed Condition: This condition is proposed following extensive review with staff and Applicant's discussion with surrounding property owners. The subject property is unique insofar as it not only sits at the intersection of Pearces Road and North Arendell Avenue – but also the property boundary and intersection configuration creates an acute angle as North Arendell Avenue runs southwest along the boundary line. This creates significant limitations on the location of the fuel pump canopy island – with the proposed option as shown on the site plan being preferable to promote (and not inhibit) site circulation. Additionally, it places a key activity center towards the intersection – and away from the neighboring properties (including an adjacent townhome/residential property) in an effort to minimize any effect of this redevelopment.

2. No more than sixty percent (60%) of off-street parking will be located between the proposed structure's primary façade and North Arendell Avenue.

   Summary of Proposed Condition: As reflected in the site plan, Applicant is proposing forty-five (45) total parking spaces. Nineteen (19) of those spaces are located on/along the sides of the primary structure with twenty-six (26) spaces located along the frontage of the building and to the right of the fuel pump canopy. This total is actually 57.78% of the total parking and a slight increase above the requirement in the ordinance of no more than fifty percent (50%) located between the primary façade and the adjoining street.

   This request is needed to focus site activity on the middle of the site and at the access points, which will promote safe, effective, and efficient ingress and egress. It will minimize any impacts to the adjoining properties – including the townhome/residential property adjoining this site. Additionally, this parking configuration is necessary to avoid any conflicts with the proposed pick-up lane – which significantly limits/restricts the rear area of the subject site for parking.

3. The proposed dumpster enclosure shall be located as shown on the site plan. The proposed dumpster shall be fully screened and enclosed. The enclosure shall be built consistent with the elevations, attached hereto and made a condition hereof. The enclosure shall be constructed with brick, concrete masonry, and pressure treated wood (or reasonably similar quality materials) to ensure aesthetic consistency with the primary structure.

   Summary of Proposed Condition: Applicant consulted with the adjacent residential property owners and property owners' association. In those discussions, the location of the proposed dumpster enclosure was a focal point. The adjacent residential property owners specifically requested that the dumpster enclosure be located/relocated away from the shared property boundary. In an effort to address those concerns, Applicant has proposed this location as shown on the site plan – which will be fully screened from view of any right-of-way and composed of masonry, brick, wood, or similar

materials (as shown in the elevation). These materials match the aesthetic of the proposed primary structure.

4. The primary wall/façade (facing North Arendell Avenue) will be occupied by no less than twenty-seven percent (27%) of visually transparent windows or doors. Applicant shall supplement with additional false/opaque windows and/or articulated wall forms.

   Summary of Proposed Condition: Applicant seeks a slight adjustment from Section 5.3.1.F.7(a) of the Commercial Design Standards for fenestration for the primary façade facing North Arendell Avenue As shown on the elevations and proposed designs for this site, Applicant provides significant fenestration and transparent windows and doors along the primary façade. The proposed percentage in this condition is the maximum Applicant is able to reasonably provide, given that Applicant cannot (for security and safety reasons) place transparent windows and doors where interior bathrooms or storage areas are located. Applicant will supplement the primary façade with false/opaque windows and/or articulated wall forms to meet the intent of the fenestration design standards.

5. The secondary wall/façade (facing Pearces Road) will be occupied by no less than twenty-four (24%) of visually transparent windows or doors, false or opaque windows, or articulated wall forms.

   Summary of Proposed Condition: Applicant seeks a slight adjustment from Section 5.3.1.F.7(b) of the Commercial Design Standards for fenestration for the secondary façade facing Pearces Road. As shown on the elevations and proposed designs for this site, Applicant provides significant fenestration and transparent windows and doors along the secondary façade facing Pearces Road. The proposed percentage in this condition is the maximum Applicant is able to reasonably provide, given that Applicant cannot (for security and safety reasons) place transparent windows and doors where interior bathrooms or storage areas are located. Where possible, Applicant will supplement the secondary façade with false/opaque windows and/or articulated wall forms to meet the intent of the fenestration design standards.

6. The street setback for Pearces Road shall be ten (10) feet for the dumpster enclosure.

   Summary of Proposed Condition: Applicant seeks a slight adjustment from the street setback requirement for Pearces Road, as detailed in Section 3.4.4(C). Specifically, the requested street setback for Pearces Road of ten (10) feet is primarily to facilitate the proposed location of the dumpster enclosure. This is a narrow request, insofar as the structures, the fuel pumps, and parking are all compliant with the thirty (30) foot street setback from Pearces Road.

7. The side perimeter buffer for the boundary adjoining the property located at 1420 North Arendell Avenue (PIN: 1796919353) shall be three (3) feet.

   Summary of Proposed Condition: Applicant requests a three-foot side perimeter buffer for the boundary adjoining the property located at 1420 North Arendell Avenue (PIN: 1796919353). Applicant will maintain a three-foot perimeter buffer at this location – which will supplement and enhance existing buffering located on the adjoining commercial property. This request is appropriate given site limitations for increased buffering along that boundary line – specifically, given the drive access that connects the two sites and the need for an adequate drive aisle for ingress, egress, and circulation. This proposed condition also aligns with the existing curb lines at the subject property.

8. The streetscape buffer along North Arendell Avenue and Pearces Road shall be zero (0) feet.

Summary of Proposed Condition: Applicant requests the elimination of the streetscape buffer requirement along North Arendell Avenue and Pearces Road. Applicant is arguably exempt from that requirement, pursuant to Section 5.6.12(C)(1), where the primary building façade "is visible from the arterial or collector street right-of-way." Here, the primary façade is directly visible from the rights-of-way for Pearces Road and North Arendell Avenue. Additionally, Applicant proposes this condition, given the site layout and to ensure safe visibility to and from the site, and to maintain the existing curb lines.

Additionally, Applicant proposes this condition because the proposed plantings and landscaping, as shown on the landscape plan, is the maximum Applicant is reasonably able to provide, given the location of rights-of-way, easements, and a retaining wall, all of which significantly constrain Applicant's ability to include additional streetscape buffering beyond what is shown. Applicant is planting additional trees and landscaping beyond what is required in other areas of the subject property and is willing to consider further supplementation in those areas, as needed.

9. Parking spaces 11, 12, 13, and 14 (as shown on the site plan) shall be permitted to be further than fifty (50) feet from the trunk of a canopy tree. Planters shall be located along the sidewalk at the storefront to enhance landscaping for the parking area and for the parking spaces 11, 12, 13, and 14.

   Summary of Proposed Condition: More than 90% of the proposed parking spaces will be within fifty (50) feet of the trunk of a canopy tree, which complies with the landscape requirements of the Town's ordinances. The parking spaces directly in front of the primary façade/entry for the subject property are slightly beyond that fifty (50) foot distance and Applicant has reasonably located proposed canopy trees as close to those spaces as reasonably practicable. To supplement the landscaping for the parking area, Applicant shall locate planters along the walkway adjoining those front spaces (including parking spaces 11, 12, 13, and 14).

Executive Summary

Kimley-Horn and Associates, Inc. has performed a Traffic Impact Analysis for the Zebulon Sheetz redevelopment, located east of NC 96 and north of Pearces Road in Zebulon, NC. The existing Sheetz on the property consists of a 5,000 square foot (s.f.) convenience store/gas station with 12 vehicle fueling positions (vfp). The development is proposing to demolish the existing store and build a new store with a 6,150 s.f. convenience store/gas station with 14 vfp. The site can currently be accessed via a right-in/right-out only driveway along NC 96 and a full movement driveway along Pearces Road. No changes to site access are proposed as part of this redevelopment. Build-out of the development is anticipated by 2026.

This report presents trip generation, distribution, traffic analyses, and recommendations for transportation improvements required to meet anticipated traffic demands in conjunction with the development.

Per the Town of Zebulon (Town) Unified Development Ordinance (UDO), the future traffic conditions were analyzed for the build-out year plus one year into the future after the development is completed (2027). Therefore, the traffic conditions studied include the following:

- Existing (2025)
- Background (2027)
- Build-out (2027)

Trip Generation

The traffic generation potential of the proposed development was determined using the trip generation data published in *Trip Generation* (Institute of Transportation Engineers, Eleventh Edition, 2021). As shown in Table ES-1 located on the following page, compared to the existing Sheetz store on the site, the proposed store is projected to generate approximately 196 additional new daily trips, 16 new AM peak hour trips, and 16 new PM peak hour trips.

Northbound Left		A (8.5)	A (8.2)	A (8.9)	A (8.5)	A (9.0)	A (8.6)

Conclusions

NCDOT TIP project U-5118 FB proposes to construct an additional southbound through lane along NC 96 beginning approximately 830 feet north of the intersection of NC 96 at Pearces Road and ending at US 64-264 WB Ramps/Dogwood Drive. At the intersection of NC 96 at Pearces Road the westbound right lane is expected to be restriped to a shared left/right lane and the existing traffic signal is expected to be modified to accommodate these laneage improvements. While this project was considered for inclusion during scoping discussions with the Town, it was ultimately excluded in order to provide a conservative analysis of the intersection of NC 96 at Pearces Road.

All study intersections are expected to operate with acceptable levels-of service and, based on SimTraffic observations, maximum queues are expected to increase minimally with the redevelopment of the Sheetz. Therefore, no improvements are recommended with the proposed expansion.

APPENDICES

LIST OF TABLES

LIST OF FIGURES

1.0 Introduction

Kimley-Horn and Associates, Inc. has performed a Traffic Impact Analysis for the Zebulon Sheetz redevelopment, located east of NC 96 and north of Pearces Road in Zebulon, NC. The existing Sheetz on the property consists of a 5,000 square foot (s.f.) convenience store/gas station with 12 vehicle fueling positions (vfp). The development is proposing to demolish the existing store and build a new store with a 6,150 s.f. convenience store/gas station with 14 vfp. The site can currently be accessed via a right-in/right-out only driveway along NC 96 and a full movement driveway along Pearces Road. No changes to site access are proposed as part of this redevelopment. Build-out of the development is anticipated by 2026.

This report presents trip generation, distribution, traffic analyses, and recommendations for transportation improvements required to meet anticipated traffic demands in conjunction with the development.

Per the Town of Zebulon (Town) Unified Development Ordinance (UDO), the future traffic conditions were analyzed for the build-out year plus one year into the future after the development is completed (2027). Therefore, the traffic conditions studied include the following:

- Existing (2025)
- Background (2027)
- Build-out (2027)

Town planning staff provided background data and were consulted regarding the elements to be covered in this analysis. The approved assumptions memorandum is included in the Appendix of this report.

2.0 Inventory

2.1 Study Area

The study area for this development includes the following intersections:

- NC 96 at Pearces Road
- NC 96 at Site Driveway 1
- Pearces Road at Site Driveway 2

Figure 2.1 shows the site location and driveway connections. The conceptual site plan is shown on **Figure 2.2**.

2.2 Existing Conditions

The Zebulon Sheetz development is located east of NC 96 and north of Pearces Road in Zebulon, NC. Roadways in the study area include NC 96 and Pearces Road. Roadway network elements (speed limit, estimated average daily traffic volume, and existing configuration) of study area roadways are summarized in Table 2.1. The existing roadway laneage is shown in **Figure 2.3**.

Table 2.1
Roadway Network Summary

Roadway	Speed Limit	Estimated AADT Volume	Typical Existing Configuration
NC 96	35 mph	12,500 vpd west of Pearces Road*; 24,000 vpd east of Pearces Road**	2-Lane Undivided/ 4-Lane Undivided
Pearces Road	35 mph	7,500 vpd north of NC 96***	2-Lane Undivided

*2021 AADT from NCDOT.
**2023 AADT from NCDOT
***ADT was calculated for this roadway using existing AM and PM traffic volumes, assuming the total of those peak hours is 20% of the daily traffic volumes.

2.3 Future Roadway Improvements

NCDOT TIP project U-5118 FB proposes to construct an additional southbound through lane along NC 96 beginning approximately 830 feet north of the intersection of NC 96 at Pearces Road and ending at US 64-264 WB Ramps/Dogwood Drive. At the intersection of NC 96 at Pearces Road the westbound right lane is expected to be restriped to a shared left/right lane and the existing traffic signal is expected to be modified to accommodate these laneage improvements. While this project was considered for inclusion during scoping discussions with the Town, it was ultimately excluded in order to provide a conservative analysis of the intersection of NC 96 at Pearces Road.

3.0 Traffic Generation

The traffic generation potential of the proposed development was determined using the traffic generation data published in *Trip Generation* (Institute of Transportation Engineers, Eleventh Edition, 2021). As currently envisioned, the proposed redevelopment is planned to consist of 6,150 s.f. convenience store/gas station with 14 vfp. Table 3.0 summarizes the estimated traffic generation for the proposed development.

Table 3.0
ITE Traffic Generation (Vehicles)

Land Use		Intensity		Daily			AM Peak Hour			PM Peak Hour		
				Total	In	Out	Total	In	Out	Total	In	Out
945	Convenience Store/Gas Station: 9-15 vfp - Existing	5,000	s.f.	3,502	1,751	1,751	283	142	141	273	137	136
945	Convenience Store/Gas Station: 9-15 vfp - Proposed	6,150	s.f.	4,308	2,154	2,154	348	174	174	335	168	167

Difference in Pass-By Reductions				***610***	***305***	***305***	***49***	***24***	***25***	***46***	***23***	***23***
Total Net New External Trips - Existing				**858**	**429**	**429**	**68**	**34**	**34**	**68**	**34**	**34**
Total Net New External Trips - Proposed				**1,054**	**527**	**527**	**84**	**42**	**42**	**84**	**42**	**42**
Difference in Total Net New External Trips				**196**	**98**	**98**	**16**	**8**	**8**	**16**	**8**	**8**

Table 3.0 shows that the proposed development has the potential to generate 6,894 new daily trips in a typical weekday with 196 new daily trips, 16 new AM peak hour trips, and 16 new PM peak hour trips.

4.0 Site Traffic Distribution

The proposed site generated trips were assigned to the surrounding roadway network. The directional distribution and assignment are based on existing travel patterns.

- 50% to/from the east via NC 96
- 30% to/from the west via NC 96
- 20% to/from the north via Peaces Road

The site traffic distribution and assignment are shown in **Figure 4.1**. The AM and PM pass-by trip distribution and assignments are shown in **Figure 4.2** and **Figure 4.3**, respectively.

5.0 Projected Traffic Volumes

5.1 Existing Traffic

AM peak hour (7:00 to 9:00 AM) and PM peak hour (4:00 to 6:00 PM) turning movement counts were performed at the following study intersection on January 28, 2025 while area schools were in session:

- NC 96 at Pearces Road

AM peak hour (7:00 to 9:00 AM) and PM peak hour (4:00 to 6:00 PM) turning movement counts were performed at each of the following study intersections on March 26, 2025, while area schools were in session:

- NC 96 at Site Driveway 1
- Pearces Road at Site Driveway 2

The existing AM and PM peak hour traffic volumes are shown on **Figure 5.1** and **Figure 5.2**, respectively, and the traffic count data are included in the Appendix.

5.2 Approved Development Traffic

Approved development traffic is generated by approved but not yet constructed projects in the vicinity of the proposed project. Based on discussions with the Town and NCDOT, there were four (4) approved developments in the study area that were identified for inclusion as background traffic. These approved developments include 7-Eleven Convenience Store, Clifton Grove (formerly Pearces Road Residential), Domino's, and Weaver's Ridge.

7-Eleven Convenience Store

- Location: East of NC 96 and north of US 64-264
- Land Uses: 4,714 s.f. convenience store with 16 vehicle fueling pumps and 3 truck fueling pumps
- Data Source: *Zebulon 7-Eleven Convenience Store TIA* (Impact Designs, Inc., March 2023)

Clifton Grove (formerly Pearces Road Residential)

- Location: West of Pearces Road and south of Pippin Road
- Land Uses: 232 single family detached units
- Data Source: *Pearces Road Residential Development TIA* (Timmons Group, October 2020)

Zebulon Domino's

- Location: North of Dogwood Drive and east of NC 96
- Land Uses: 1,632 s.f. Domino's Restaurant
- Data Source: *Zebulon Domino's TIA* (DRMP, Inc., November 2024)

Weaver's Ridge

- Location: East of NC 96 across from Glory Road
- Land Uses: 124 townhomes and 58 single-family homes

- Data Source: *Weaver's Ridge Traffic Study* (Ramey Kemp & Associates, Inc., July 2019)

Approved development traffic volumes for the future year scenarios are shown on **Figure 5.1** and **Figure 5.2** for the AM and PM peak hours, respectively.

5.3 Historic Growth Traffic

Historic growth traffic is the increase in traffic due to usage increases and non-specific growth throughout the area. In addition to the approved development traffic and per Town requirements, study intersections were grown to the 2027 build-out year using an annual growth rate of 2.5%.

Projected future year (2027) background AM and PM peak hour traffic volumes are shown on **Figure 5.1** and **Figure 5.2**, respectively. Background growth calculations are detailed on intersection spreadsheets in the Appendix of this report.

5.4 Site Traffic

The proposed site traffic was generated and assigned to the adjacent roadway network according to the distributions discussed previously in *Section 4.0.* The primary AM and PM peak hour site traffic volumes are shown on **Figure 5.3** and **Figure 5.4**, respectively. The pass-by AM and PM peak hour site traffic volumes are shown on **Figure 5.3** and **Figure 5.4**, respectively.

5.5 Build-Out Traffic

To obtain the projected (2027) build-out traffic volumes, the projected site traffic volumes were added to the projected (2027) background traffic. Traffic volume calculations are detailed in intersection spreadsheets in the Appendix of this report. **Figure 5.3** and **Figure 5.4** show the projected (2027) AM and PM peak hour build-out traffic volumes, respectively.

6.0 Capacity Analysis

Capacity analyses (see Appendix) were performed for the AM and PM peak hours for the existing traffic condition (2025) and the projected (2027) background and build-out traffic conditions using Synchro/SimTraffic Version 12 software to determine the operating characteristics of the adjacent road network and the impacts of the proposed project.

Capacity is defined as the maximum number of vehicles that can pass over a particular road segment or through a particular intersection within a set time duration. Capacity is combined with Level-of-Service (LOS) to describe the operating characteristics of a road segment or intersection. LOS is a qualitative measure that describes operational conditions and motorist perceptions within a traffic stream. The *Highway Capacity Manual* defines six levels of service, LOS A through LOS F, with A representing the shortest average delays and F representing the longest average delays. LOS D is the typically accepted standard for signalized intersections in urbanized areas. For signalized intersections, LOS is defined for the overall intersection operation.

For unsignalized intersections, only the movements that must yield right-of-way experience control delay. Therefore, LOS criteria for the overall intersection is not reported by Synchro/SimTraffic Version 12 or computable using methodology published in the *Highway Capacity Manual*. It is typical for stop sign controlled side streets and driveways intersecting major streets to experience long delays during peak hours, while the majority of the traffic moving through the intersection on the major street experiences little or no delay. Table 6.0 lists the LOS control delay thresholds published in the *Highway Capacity Manual* for signalized and unsignalized intersections.

Table 6.0
Level-of-Service Control Delay Thresholds

Level-of-Service	Signalized Intersections – Control Delay Per Vehicle [sec/veh]	Unsignalized Intersections – Average Control Delay [sec/veh] & Qualitative Operational Description	
A	≤ 10	≤ 10	Short Delays
B	> 10 – 20	> 10 – 15	
C	> 20 – 35	> 15 – 25	
D	> 35 – 55	> 25 – 35	Moderate Delays
E	> 55 – 80	> 35 – 50	
F	> 80	> 50	Long Delays

Existing peak hour factors were used for existing (2025) traffic conditions. A peak hour factor of 0.9 was used for all future scenarios. To provide a conservative analysis, existing coordinated signal timings were used in all future traffic conditions at the intersection of NC 96 at Pearces Road.

All capacity analyses are included in the Appendix and are briefly summarized in the following sub-sections.

6.1 NC 96 at Pearces Road

Analyses indicate that the signalized intersection of NC 96 at Pearces Road currently operates at LOS C in the AM peak hour and LOS B in the PM peak hour. The signalized intersection is expected to continue to operate at LOS C in the AM peak hour and LOS B in the PM peak hour, with or without the proposed redevelopment in place. With the increase in site traffic as part of the Sheetz redevelopment, minimal increases in vehicular queues are expected from background to build-out traffic conditions.

As site traffic is expected to have minimal impact on the operation of this intersection, no improvements are recommended to accommodate projected site traffic.

Table 6.1 summarizes the operation of the intersection of NC 96 at Pearces Road for existing (2025), background (2027), and build-out (2027) traffic conditions.

Table 6.1
NC 96 at Pearces Road (Signalized)

Condition	AM Peak Hour LOS (Delay)	PM Peak Hour LOS (Delay)
Existing (2025) Traffic	Overall - C (21.8) EB - B (16.6) WB - B (15.3) SB - D (42.3)	Overall - B (15.1) EB - B (11.6) WB - A (7.5) SB - D (50.4)
Background (2027) Traffic	Overall - C (26.4) EB - C (21.9) WB - B (19.9) SB - D (43.8)	Overall - B (17.5) EB - B (15.3) WB - A (9.8) SB - D (48.4)
Build-out (2027) Traffic	Overall - C (26.9) EB - C (22.2) WB - C (20.3) SB - D (44.4)	Overall - B (17.9) EB - B (15.6) WB - B (10.0) SB - D (48.7)

6.2 NC 96 at Site Driveway 1

Analyses indicate that the unsignalized intersection of NC 96 at Site Driveway 1 currently operates with short delays in both peak hours for the minor-street approach (Site Driveway 1). The minor-street approach of this intersection is expected to continue to operate with short delays in both peak hours, with or without the proposed redevelopment in place. With the increase in site traffic as part of the Sheetz redevelopment, minimal increases in vehicular queues are expected from background to build-out traffic conditions.

As site traffic is expected to have minimal impact on the operation of this intersection, no improvements are recommended to accommodate projected site traffic.

Table 6.2 summarizes the operation of the intersection of NC 96 at Site Driveway 1 for existing (2025), background (2027), and build-out (2027) traffic conditions.

Table 6.2
NC 96 at Site Driveway 1 (Unsignalized)

Condition	AM Peak Hour LOS (Delay)	PM Peak Hour LOS (Delay)
Existing (2025) Traffic	SB - B (14.4)	SB - C (15.6)
Background (2027) Traffic	SB - C (15.8)	SB - C (18.2)
Build-out (2027) Traffic	SB - C (15.9)	SB - C (18.5)

6.3 Pearces Road at Site Driveway 2

Analyses indicate that the unsignalized intersection of Pearces Road at Site Driveway 2 currently operates with short delays in both peak hours for the minor-street approach (Site Driveway 2). The minor-street approach of this intersection is expected to continue to operate with short delays in both peak hours under background (2027) traffic conditions. With the proposed redevelopment in place, the minor-street approach is expected to operate with short delays in the AM peak hour and moderate delays in the PM peak hour. With the increase in site traffic as part of the Sheetz redevelopment, minimal increases in vehicular queues are expected from background to build-out traffic conditions.

As site traffic is expected to have minimal impact on the operation of this intersection, no improvements are recommended to accommodate projected site traffic.

Table 6.3 summarizes the operation of the intersection of Pearces Road at Site Driveway 2 for existing (2025), background (2027), and build-out (2027) traffic conditions.

Table 6.3
Pearces Road at Site Driveway 2 (Unsignalized)

Condition	AM Peak Hour LOS (Delay)	PM Peak Hour LOS (Delay)
Existing (2025) Traffic	EB - B (13.9) NBL - A (8.5)	EB - C (17.2) NBL - A (8.2)
Background (2027) Traffic	EB - C (16.4) NBL - A (8.9)	EB - C (22.9) NBL - A (8.5)
Build-out (2027) Traffic	EB - C (17.9) NBL - A (9.0)	EB - D (26.8) NBL - A (8.6)

7.0 Conclusions

NCDOT TIP project U-5118 FB proposes to construct an additional southbound through lane along NC 96 beginning approximately 830 feet north of the intersection of NC 96 at Pearces Road and ending at US 64-264 WB Ramps/Dogwood Drive. At the intersection of NC 96 at Pearces Road the westbound right lane is expected to be restriped to a shared left/right lane and the existing traffic signal is expected to be modified to accommodate these laneage improvements. While this project was considered for inclusion during scoping discussions with the Town, it was ultimately excluded in order to provide a conservative analysis of the intersection of NC 96 at Pearces Road.

All study intersections are expected to operate with acceptable levels-of service and, based on SimTraffic observations, maximum queues are expected to increase minimally with the redevelopment of the Sheetz. Therefore, no improvements are recommended with the proposed expansion.

Appendix

Appendix A:

Approved Assumptions Memorandum

6/1/2025

Preliminary Assumptions – Zebulon Sheetz - UPDATED
Traffic Impact Analysis
Zebulon, North Carolina

KHA will perform analyses for the Zebulon Sheetz development, a proposed commercial project located along east of NC 96 and north of Pearces Road in Zebulon, North Carolina. The following assumptions will be used in the analysis of the site:

Study Intersections
The study area will consist of the following intersections:

- NC 96 at Pearces Road
- NC 96 at Site Driveway 1 *(right-in/right-out access)*
- Pearces Road at Site Driveway 2 *(full movement access)*

Analysis Scenarios
Weekday AM and PM peak hour analyses will be performed for the following traffic conditions:

- Existing (2025)
- Background (2026 +1)*
- Build-out (2026 +1)*
- Build-out (2026 +1)* - with Improvements

**Per the Town of Zebulon Unified Development Ordinance (UDO), the future traffic conditions will be analyzed for the build-out year plus one year into the future after the development is completed (2027).*

Background Traffic Growth
Based on historical AADT data from NCDOT and nearby developments and Town of Zebulon ordinances, an annual growth rate of 2.5% will be used to grow the existing traffic counts to the build-out year.

Approved Developments
Additionally, based on the Town of Zebulon Development Activity Map, the following approved developments were identified for inclusion in this analysis as background traffic:

- 7-Eleven
- Zebulon Domino's
- Clifton Grove (Pearces Road Residential)
- Weavers Ridge

Traffic for these approved developments will be obtained or developed from either site plans or traffic studies attained from the Town of Zebulon.

Roadway Improvements by Others
State Transportation Improvement Program (TIP) project U-5118 FB proposes to construct access management improvements north of Pearces Road to Dogwood Drive along NC 96. This project is expected to begin construction in 2025. While this project was considered for inclusion during scoping discussions with the Town, it will ultimately be excluded in order to provide a conservative analysis of the intersection of NC 96 at Pearces Road.

Trip Distribution
The following overall distribution will be used for Zebulon Sheetz Development entering and exiting traffic:

- 50% to/from the east on NC 96
- 30% to/from the west on NC 96

- 20% to/from the north on Pearces Road

Trip Generation

The property is currently consists of a 5,000 square foot (SF) convenience store/gas station with 12 vehicle fueling positions (vfp). The development is proposing to expand the store to 6,150 SF with 14 vfp. See attached for the existing and proposed trip generation of the Zebulon Sheetz development.

Other Study Assumptions

Existing peak hour factors (PHF) will be used in each traffic condition where those exceed the default PHF of 0.90. For future traffic signals, inputs (right-turns on red, permitted + protected phasing) will be obtained from the signal plans, and optimized signal timings will be used in each of the traffic conditions.

GENERAL NOTES:

1. ALL SITE WORK SHALL BE DONE IN ACCORDANCE WITH THE PLANS PREPARED BY RIVERS AND ASSOCIATES, INC., THE CURRENT REQUIREMENTS OF THE TOWN OF ZEBULON, THE APPLICABLE SECTIONS OF THE NCDOT STANDARD SPECIFICATIONS FOR ROADWAY CONSTRUCTION, AND ALL OTHER PERTINENT FEDERAL, STATE AND LOCAL LAWS.
2. THE CONTRACTOR SHALL COMPLY AT ALL TIMES WITH APPLICABLE FEDERAL, STATE AND LOCAL LAWS, PROVISIONS, AND POLICIES GOVERNING SAFETY AND HEALTH, INCLUDING THE FEDERAL CONSTRUCTION SAFETY ACT (PUBLIC LAW 91-54), FEDERAL REGISTER, CHAPTER XVII, PART 1926 OF TITLE 29 REGULATIONS, OCCUPATIONAL SAFETY AND HEALTH REGULATIONS FOR CONSTRUCTION, AND SUBSEQUENT PUBLICATIONS UPDATING THESE REGULATIONS.
3. THE CONTRACTOR SHALL BE RESPONSIBLE FOR EXAMINING THE AREAS AND CONDITIONS UNDER WHICH THE PROJECT IS TO BE CONSTRUCTED PRIOR TO THE SUBMISSION OF A BID. SUBMISSION OF A BID SHALL BE CONSTRUED TO MEAN THE CONTRACTOR HAS REVIEWED THE SITE AND IS FAMILIAR WITH CONDITIONS AND CONSTRAINTS OF THE SITE.
4. BEFORE EXCAVATION, ALL UNDERGROUND UTILITIES SHALL BE LOCATED IN THE FIELD BY THE PROPER AUTHORITIES. THE CONTRACTOR SHALL NOTIFY N.C. ONE CALL AT 1-800-632-4949. THE LOCATION OF ALL UTILITIES AND UNDERGROUND STRUCTURES ARE APPROXIMATE AND MAY NOT ALL BE SHOWN. IT IS THE RESPONSIBILITY OF THE CONTRACTOR TO DETERMINE THE EXISTENCE AND EXACT LOCATION OF ALL UTILITIES AND UNDERGROUND STRUCTURES.
5. CONTRACTOR SHALL REFER TO THE GEOTECHNICAL REPORT PRIOR TO INITIATION OF ANY EARTHWORK ACTIVITY.
6. CONTRACTOR SHALL NOTIFY PUBLIC WORKS STREET MAINTENANCE DIVISION 48 HOURS PRIOR TO MAKING CONNECTIONS TO EXISTING STORM DRAINS LOCATED WITHIN PUBLIC STORM DRAINAGE EASEMENTS OR R/W.
7. REFER TO C1.02 FOR SURVEY CONTROL INFORMATION.
8. CONTRACTOR SHALL REFER TO OTHER PLANS WITHIN THIS CONSTRUCTION SET FOR OTHER PERTINENT INFORMATION.
9. PER FEMA FIRM MAP 3720466000L DATED 7/7/14, THIS PROJECT IS IN ZONE X AND THEREFORE THERE IS NO REGULATORY FLOODPLAIN LOCATED ON THIS PROPERTY.
10. BUILDINGS, STRUCTURES OR OTHER IMPROVEMENTS, MATERIALS AND SURFACES, INCLUDING BUT NOT LIMITED TO PRINCIPLE AND ACCESSORY STRUCTURES AND ADDITIONS AND APPURTENANCES THERETO, SIGNAGE, FENCES, WALLS, MECHANICAL EQUIPMENT, CANOPIES, ANNTENNAS, MASTS, DEBRIS, SOLID WASTE COLLECTION CONTAINERS, MAIL RECEPTACLES, AND IMPERVIOUS SURFACES SHALL NOT ENCROACH WITHIN ANY DEDICATED EASEMENT WITHOUT PRIOR APPROVAL OF TOWN OF ZEBULON & THE CITY OF RALEIGH PUBLIC UTILITIES DEPARTMENT.
11. SOIL EROSION AND SEDIMENTATION CONTROL PLAN IS NOT APPLICABLE, THE SITE DISTURBANCE IS LESS THAN ONE ACRE.
12. WETLANDS ARE VALUABLE NATURAL RESOURCES THAT PROVIDE IMPORTANT ECOLOGICAL FUNCTIONS. BE ADVISED THAT ACTIVITIES IN WETLANDS ARE REGULATED BY THE FEDERAL GOVERNMENT UNDER SECTION 404 OF THE CLEAN WATER ACT. JURISDICTIONAL WETLANDS MAY INCLUDE THE PINE-SHRUB POCOSINS THAT ARE COMMON IN THIS REGION. IF ANY PRIVATE LAND OWNER, DEVELOPER, CORPORATION, OR OTHER PERSON PROPOSES TO UNDERTAKE CONSTRUCTION/FILLING ACTIVITIES IN OR NEAR A LAKE, STREAM, CREEK TRIBUTARY OR ANY UNNAMED BODY OF WATER INCLUDING ITS ADJACENT WETLANDS, FEDERAL PERMIT AUTHORIZATION MAY BE REQUIRED FROM THE U.S. ARMY CORPS OF ENGINEERS PRIOR TO COMMENCEMENT OF SUCH LAND-DISTURBING ACTIVITIES. PLEASE CONTACT MS. TRACY WHEELER, TELEPHONE (252) 975-1616 FOR A WETLAND DETERMINATION AND INFORMATION REGARDING SPECIFIC PERMIT REQUIREMENTS. WETLANDS DETERMINATION PENDING, BY OTHERS.
13. APPROVAL OF SITE PLAN DOES NOT CONSTITUTE APPROVAL OF SIGNS. SEPARATE SIGN PERMITS ARE REQUIRED.
14. ALL SLOPES SHALL BE 3:1 (HORIZONTAL:VERTICAL) MAXIMUM UNLESS NOTED OTHERWISE.
15. ALL AREAS NOT PAVED SHALL BE TOPSOILED, SEEDED, MULCHED OR LANDSCAPED/SODDED UNLESS OTHERWISE NOTED IN THE CONSTRUCTION DRAWINGS, SITE SPECIFICATIONS OR INSTRUCTED BY THE OWNER.
16. ALL REQUIRED IMPROVEMENTS SHALL COMPLY WITH THE TOWN OF ZEBULON ZONING ORDINANCE
17. REFUSE COLLECTION SHALL BE PROVIDED BY PRIVATE CONTRACTOR.
18. CONSTRUCTION OF ROADWAY EXTENSION BY OTHERS

STORMWATER MANAGEMENT NOTES:

1. EXISTING STORMWATER MANAGEMENT DETENTION BASIN
   - A. ON-SITE ALLOWABLE IMPERVIOUS SURFACE AREA = 1.89 AC = 82,328 SF
   - B. SONIC IMPERVIOUS SURFACE AREA = 0.84 AC = 36,590 SF
   - C. CAPITAL BANK IMPERVIOUS SURFACE AREA = 0.56 AC = 24,394 SF
2. ALLOWABLE IMPERVIOUS SURFACE AREA FOR SITE = 0.48 AC = 21,344 SF
3. PROPOSED IMPERVIOUS SURFACE AREA FOR SITE = 0.45 AC = 16,771 SF
4. ALLOWABLE FUTURE IMPERVIOUS AREA = 21,344 SF - 16,771 SF = 4,573 SF

NOTE:

1. PAVEMENT MARKINGS WITHIN SITE CAN BE PAINTED. PAVEMENT MARKINGS WITHIN RIGHT OF WAY SHALL BE THERMOPLASTIC AND SHALL BE INSTALLED IN ACCORDANCE WITH NCDOT STANDARDS AND SPECIFICATIONS.

2. EXISTING ON-SITE FIBER OPTIC LINES TO BE REROUTED BY CONTRACTOR.

HC RAMPS:

1. ALL HC RAMPS TO BE FIELD ADJUSTED WITH INPUT FROM THE TOWN OF ZEBULON FIELD INSPECTOR PRIOR TO INSTALLATION.

2. POWER POLES WHICH CONFLICT WITH FIELD LOCATED HC RAMPS ARE TO BE RELOCATED BY APPROPRIATE UTILITY COMPANY.

Subject: Traffic Study
Weaver's Ridge – Zebulon, North Carolina

Dear Mr. Bradshaw:

This letter provides the findings of the traffic study prepared by Ramey Kemp & Associates, Inc. (RKA) for the proposed Weaver's Ridge development located east of Zebulon Road (NC 96) across from Glory Road in Zebulon, North Carolina. The purpose of the study is to determine how traffic generated by the proposed development is expected to impact surrounding roadways and intersections.

The proposed residential development is assumed to consist of 124 townhomes and 58 single-family homes. Refer to Figure 1 for the site location map. Site access will be provided via one (1) full movement site driveway along Zebulon Road (NC 96) across from Glory Road and a connection to the Weaver's Pond Development via Golden Plum Lane.

Refer to Figure 2 for the preliminary site plan of the proposed development and Figure 3 for an illustration of the existing lane configurations within the study area.

The study analyzes traffic conditions for the study intersections during the weekday AM and PM peak hours for the following scenarios:

- Existing (2019) Traffic Conditions
- Background (2024 +1) Traffic Conditions
- Combined (2024 +1) Traffic Conditions
- Combined (2024 +1) Traffic Conditions with Improvements

Existing (2019) Peak Hour Conditions

Through coordination with the Town of Zebulon (Town) and the North Carolina Department of Transportation (NCDOT), existing peak hour traffic volumes were determined based on previous and current traffic studies conducted within the study area. The counts from the Weaver's Pond Development were conducted by Ramey Kemp & Associates, Inc. in August of 2017 and projected to the year 2019 for the existing (2019) volumes for the following intersections:

- Zebulon Road (NC 96) and Pippin Road
- Pippin Road and Pearces Road

Existing peak hour traffic volumes were determined based on traffic counts conducted at the study intersections listed below, in April of 2019 by Ramey Kemp & Associates, Inc. during a typical weekday AM (7:00 AM – 9:00 AM) and PM (4:00 PM – 6:00 PM) peak periods:

- Zebulon Road (NC 96) and Glory Road

The volumes conducted in 2017 were grown to the year 2019 using an annual 3% growth rate and then the volumes were balanced along Zebulon Road (NC 96) to account for any variance associated with the different count dates. Volumes were not balanced along Pippin Road due to the reasonable imbalance in comparison to the land uses between the intersections along Pippin Road. Refer to Figure 4 for existing weekday AM and PM peak hour traffic volumes. A copy of the count data is attached to this report. Through coordination with the Town and the NCDOT, it was determined that an annual growth rate of 3% would be used to generate projected traffic volumes. Refer to Figure 5 for projected (2025) traffic. It should be noted that the balanced existing (2019) traffic is not re-balanced after the growth rate is applied for the projected (2025) traffic volumes, which can result in minor (1 vehicle) imbalances due to rounding.

Adjacent Developments

Through coordination with the Town, the following residential developments were identified to be included as an adjacent development in this study:

- Weaver's Pond
- Taryn Lake & Taryn Creek

Adjacent development trips are shown in Figure 6. Refer to the appendix in the attachments for the adjacent development information.

Background (2025) Peak Hour Conditions

Background traffic is comprised of existing traffic growth within the study area and additional traffic created as a result of adjacent approved developments. The background (2025) traffic volumes were determined by projecting the existing (2019) peak hour traffic to the year 2025 and adding the adjacent development trips. Refer to Figure 7 for background (2025) peak hour traffic.

Future Roadway Improvements

The Weaver's Pond development has committed to improvements at the intersection of Zebulon Road (NC 96) and Pippin Road. The improvements are expected to consist of a northbound right-turn lane with at least 100 feet of storage and appropriate decel and taper, a southbound left-turn lane with at least 150 feet of storage and appropriate decel and taper, and signalization of the intersection.

Trip Generation

The proposed development is assumed to consist of 124 townhomes and 58 single-family homes. Average weekday daily, AM peak hour, and PM peak hour trips for the proposed development were estimated using methodology contained within the ITE *Trip Generation Manual*, 10th Edition. Refer to Table 1 for a detailed breakdown of the proposed site trip generation.

Table 1: Trip Generation Summary

Land Use (ITE Code)	Intensity	Daily Traffic (vpd)	AM Peak Hour Trips (vph)		PM Peak Hour Trips (vph)	
			Enter	Exit	Enter	Exit
Single-Family Detached Housing (210)	58 units	630	11	35	38	22
Multifamily Housing (Low-Rise) (Townhomes) (220)	124 units	900	14	45	45	27
Total Trips		**1,530**	**25**	**80**	**83**	**49**

It is estimated that the proposed development will generate approximately 1,530 total site trips on the roadway network during a typical 24-hour weekday period. Of the daily traffic volume, it is anticipated that 105 trips (25 entering and 80 exiting) will occur during the weekday AM peak hour and 132 trips (83 entering and 49 exiting) will occur during the weekday PM peak hour.

Site Trip Distribution and Assignment

Trip distribution percentages used in assigning site traffic for this development were estimated based on a combination of existing traffic patterns, population centers adjacent to the study area, and engineering judgment. All trip distributions were approved by the Town and NCDOT during the scoping process. It is estimated that trips will be regionally distributed as follows:

- 20% to/from the north via Pearces Road
- 5% to/from the south via Pearces Road
- 50% to/from the south via Zebulon Road (NC 96)
- 25% to/from the north via Zebulon Road (NC 96)

It should be noted that based on engineering judgement it was determined that 100% of site trips will exit the site using the full movement site driveway located along Zebulon Road (NC 96). The site trip distribution is shown in Figure 8. Refer to Figure 9 for the site trip assignment.

It is not expected that the traffic from the proposed development will utilize the Weaver's Pond access; however, it is expected that a portion of the Weaver's Pond development will utilize the new site drive along Zebulon Road (NC 96). Based on coordination with the NCDOT and Town, Phases 3A and 5 of the Weaver's Pond Master Plan are proposed to be rerouted from the Weaver's Pond access on Pippin Road to the new Zebulon Road (NC 96) site drive aligned with Glory Road. Phases 3A and 5 include 137 homes combined, or approximately 19% of the total homes in the Weaver's Pond development. 19% of the Weaver's Pond site trips were rerouted from Pippin Road to the proposed site drive. Figure 10 illustrates the anticipated rerouted Weaver's Pond development site trips through the proposed Weaver's Ridge site.

Combined (2025) Peak Hour Conditions

To estimate traffic conditions with the site fully built-out, the total site trips were added to the background (2025) traffic volumes to determine the combined (2025) traffic volumes. Refer to Figure 11 for an illustration of the combined (2025) peak hour traffic volumes with the proposed site fully developed.

Capacity Analysis

The existing (2019), background (2025), and combined (2025) weekday AM and PM peak hour traffic volumes were analyzed to determine the current levels of service at the study intersections under existing roadway conditions. The results of the analysis are presented in the following section of this report.

Zebulon Road (NC 96) and Pippin Road

The existing intersection of Zebulon Road (NC 96) and Pippin Road was analyzed under existing (2019), background (2025), and combined (2025) traffic conditions with the lane configurations and traffic control shown in Table 2. It should be noted that this intersection was analyzed as a signalized intersection for the background (2025) and combined (2025) scenarios. Refer to Table 2 for a summary of the analysis results. The Synchro capacity analysis reports are included in the attached appendix.

Table 2: Analysis Summary of Zebulon Road (NC 96) and Pippin Road

ANALYSIS SCENARIO	APPROACH	LANE CONFIGURATIONS	WEEKDAY AM PEAK HOUR LEVEL OF SERVICE		WEEKDAY PM PEAK HOUR LEVEL OF SERVICE	
			Approach	Overall (seconds)	Approach	Overall (seconds)
Existing (2019) Conditions	WB NB SB	1 LT-RT 1 TH-RT 1 LT-TH	C[2] -- A[1]	N/A	D[2] -- A[1]	N/A
Background (2025) Conditions - **Signalized**	WB NB SB	1 LT-RT 1 TH, <u>1 RT</u> <u>1 LT</u>, 1TH	C C B	C (22)	D C C	C (23)
Combined (2025) Conditions - **Signalized**	WB NB SB	1 LT-RT 1 TH, <u>1 RT</u> <u>1 LT</u>, 1TH	C C B	C (21)	D C C	C (26)

Improvements by Weaver's Pond shown <u>underlined</u>.
1. Level of service for major-street left-turn movement.
2. Level of service for minor-street approach.

Capacity analysis of existing (2019) traffic conditions indicates the minor-street approach at Zebulon Road (NC 96) and Pippin Road operates at LOS C during the weekday AM peak hour and LOS D during the weekday PM peak hour. The Weaver's Pond development is committed to constructing a northbound right-turn lane, a southbound left-turn lane and installing a signal at this intersection. These improvements were analyzed under future (2025) traffic conditions. Because signal plans and timings have not yet been finalized, the signal timings were optimized under background (2025) traffic conditions and the same timings were used to analyze combined (2025) traffic conditions. Under background (2025) and combined (2025) traffic conditions, the intersection is expected to operate at an overall LOS C or better.

It is anticipated that the improvements associated with the Weaver's Pond development will accommodate the proposed site traffic at this intersection.

Pippin Road and Pearces Road

The existing unsignalized intersection of Pippin Road and Pearces Road was analyzed under existing (2019), background (2025), and combined (2025) traffic conditions with the lane configurations and traffic control shown in Table 3. Refer to Table 3 for a summary of the analysis results. The Synchro capacity analysis reports are included in the attached appendix.

Table 3: Analysis Summary of Pippin Road and Pearces Road

ANALYSIS SCENARIO	APPROACH	LANE CONFIGURATIONS	WEEKDAY AM PEAK HOUR LEVEL OF SERVICE		WEEKDAY PM PEAK HOUR LEVEL OF SERVICE	
			Approach	Overall (seconds)	Approach	Overall (seconds)
Existing (2019) Conditions	EB WB NB SB	1 LT-TH-RT 1 LT-TH-RT 1 LT-TH-RT 1 LT-TH-RT	B[2] B[2] A[1] A[1]	N/A	B[2] B[2] A[1] A[1]	N/A
Background (2025) Conditions	EB WB NB SB	1 LT-TH-RT 1 LT-TH-RT 1 LT-TH-RT 1 LT-TH-RT	C[2] C[2] A[1] A[1]	N/A	C[2] C[2] A[1] A[1]	N/A

1. Level of service for major-street left-turn movement.
2. Level of service for minor-street approach.

Capacity analysis of existing (2019), background (2025), and combined (2025) traffic conditions indicates the minor-street approaches and major-street left-turn movements at Pippin Road and Pearces Road are expected to operate at LOS C or better during both the weekday AM and PM peak hours.

Zebulon Road (NC 96) and Glory Road/Site Drive

The existing unsignalized intersection of Zebulon Road and Glory Road/Site Drive was analyzed under existing (2019), background (2025), and combined (2025) traffic conditions with the lane configurations and traffic control shown in Table 4. Refer to Table 4 for a summary of the analysis results. The Synchro capacity analysis reports are included in the attached appendix.

Table 4: Analysis Summary of Zebulon Road (NC 96) and Glory Road/Site Drive

ANALYSIS SCENARIO	APPROACH	LANE CONFIGURATIONS	WEEKDAY AM PEAK HOUR LEVEL OF SERVICE		WEEKDAY PM PEAK HOUR LEVEL OF SERVICE

Improvements by Developer shown in **bold**.

1. Level of service for major-street left-turn movement.
2. Level of service for minor-street approach.

Capacity analysis of existing (2019) and background (2025) traffic conditions indicates the minor-street approach and major-street left-turn movement at Pippin Road and Glory Road are expected to operate at LOS C or better during both the weekday AM and PM peak hours. Under combined (2025) traffic conditions, the proposed development is expected to add a 4th leg to the intersection. With the addition of the 4th leg, the eastbound minor-street approach is expected to operate at LOS D during the weekday AM peak hour and LOS E during the weekday PM peak hour, and the new westbound approach is expected to operate at LOS F during both the weekday AM and PM peak hours.

Right and left-turn lanes were analyzed and recommended per the NCDOT *Policy on Street and Driveway Access to North Carolina Highways* (Driveway Manual). A southbound left-turn lane with 50 feet of storage and appropriate decel and taper is recommended, as well as a northbound right-turn lane with 100 feet of storage and appropriate decel and taper.

Per the Town's UDO, if a site access operates at LOS D or worse, additional site access points may need to be considered. It should be noted that the proposed Weaver's Ridge development is expected to have connectivity to the Weaver's Pond development, which has two site access points along Pippin Road. Drivers will likely use an alternative site access if they experience significant delay at the more convenient site access.

In order to meet the Town's UDO, improvements must be identified to improve the intersection to an acceptable level-of-service. Signalization and/or additional capacity along Zebulon Road (NC 96) would be necessary for significant improvement at the intersection. A traffic signal was considered at this intersection, and combined (2025) traffic volumes were analyzed utilizing the criteria contained in the *Manual on Uniform Traffic Control Devices* (MUTCD). A traffic signal was warranted during both weekday peak hours under combined (2025) traffic conditions; however, due to the high volume of residential development, which typically generates trips during two peak hours each day, it is anticipated that a 4- or 8-hour signal warrant would not be met.

A traffic signal was analyzed at the intersection to meet the Town's UDO requirements. With a signal, the intersection is expected to operate at LOS B with all approaches operating at LOS D or better.

Conclusions

This traffic study was conducted to determine the potential traffic impacts for the proposed Weaver's Ridge residential development located east of Zebulon Road (NC 96) across from Glory Road in Zebulon, North Carolina.

The proposed residential development is assumed to consist of 124 townhomes and 58 single-family homes. The study analyzes traffic conditions during the weekday AM and PM peak hours for the following scenarios:

- Existing (2019) Traffic Conditions
- Background (2025) Traffic Conditions
- Combined (2025) Traffic Conditions
- Combined (2025) Traffic Conditions with Improvements

It is estimated that the proposed development will generate approximately 1,530 total site trips on the roadway network during a typical 24-hour weekday period. Of the daily traffic volume, it is anticipated that 105 trips (25 entering and 80 exiting) will occur during the weekday AM peak hour and 132 trips (83 entering and 49 exiting) will occur during the weekday PM peak hour.

Recommendations

Based on the findings of this study, specific geometric improvements have been identified and are recommended to accommodate future traffic conditions. See a more detailed description of the recommended improvements below. Refer to Figure 12 for an illustration of the recommended lane configuration for the proposed development.

Committed Improvements by Weaver's Pond

Zebulon Road (NC 96) and Pippin Road

- Provide designated northbound right-turn lane with at least 100 feet of storage and appropriate decel and taper.
- Provide designated southbound left-turn lane with at least 150 feet of storage and appropriate decel and taper.
- Install traffic signal at intersection when warranted.

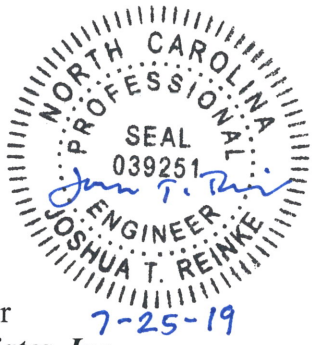
Recommended Improvements by Developer

Zebulon Road (NC 96) and Glory Road / Site Drive 1

- Provide site access via westbound approach with one ingress lane and two egress lanes striped as one left-turn lane and one shared through/right-turn lane.
- Provide designated northbound right-turn lane with at least 100 feet of storage and appropriate decel and taper.
- Provide designated southbound left-turn lane with at least 50 feet of storage and appropriate decel and taper.
- Monitor intersection for signalization.

If you should have any questions, please feel free to contact me at (919) 872-5115.

Sincerely,



Joshua Reinke, P.E.

NORTH CAROLINA

MUNICIPAL UTILITY ALLOCATION POLICY

Statement of Purpose and Goals

Introduction

Drinking water supplies throughout the greater City of Raleigh distribution system are finite, subject to disruption by drought and/or other calamity and Zebulon's allocation is contractually limited. The Town staff, the Planning Board, and the Board of Commissioners have given a great deal of thought and study as to the best utilization of this valuable resource to benefit current and future citizens.

The Town of Zebulon's municipal water and sewer capacity is a valuable resource that must be conserved and apportioned to new development projects that promote the Town's policy of ensuring a diversified tax base and housing supply. Such an allocation policy will tend to promote diversity of housing available to a wide cross section of citizens of diverse socio-economic backgrounds and promote economic viability and sustainability by providing for retail and other commercial development within the Town of Zebulon.

In order to preserve and enhance property values, manage its limited water supply as a vital natural resource, promote economic development, and incentivize smart growth practices, the allocation of Zebulon's potable water capacity shall hereafter be in accordance with this policy.

Land Use and the Tax Base

The local government expense of providing fire and police protection, schools, parks, social services, water and sewage systems and other essential public services to residential neighborhoods is generally greater than the ad valorem tax revenue generated by such neighborhoods. On the other hand, the cost of providing services to commercial and industrial development is generally less than the tax revenue accruing to the local government. Having a predominantly residential tax base would require the Town of Zebulon over time to assess a higher tax levy to raise funds to provide essential services or to reduce the level of public services provided. This is one reason among many why local governments including Zebulon strive to achieve a balance of both residential and non-residential growth.

Zebulon's historical development is transitioning from industrial to residential, leading to a current tax base of approximately 40% residential and 60% commercial/industrial. The following table shows Zebulon's tax base over the past five years [1]

Zebulon Tax Base (Past Five Years)

Fiscal Year	Commercial	Residential
2021-2022	60%	40%
2020-2021	65%	35%
2019-2020	72%	28%
2018-2019	73%	27%
2017-2018	71%	29%

[1] "Tax Base Components | Wake County Government," *Wake County North Carolina*, https://www.wakegov.com/departments-government/tax-administration/data-files-statistics-and-reports/tax-base-components

As shown in the table above, the residential tax base has steadily increased proportionally over the past five years. This trend in the tax base data, combined with the vested planned residential development in the coming years, demonstrates the need for the Town to address this shift through policy. The Zebulon Board of Commissioners believes that it is fiscally responsible and otherwise in the public interest to promote and encourage non-residential development in the jurisdiction as an alternative to rapid residential development to keep the ratio between the two development types well balanced. A goal of maintaining a tax base of 60% residential and 40% commercial/industrial is hereby established.

Development Goals for the Full Build-Out of Zebulon

Communities without a wide variety of housing types and styles also put pressure on the Wake County Public School System which remains committed to having students of a wide range of socio-economic backgrounds attend each local school. In addition to the goal of maintaining a balanced tax base, the Town of Zebulon is committed to achieving a balance of housing types within its jurisdiction.

This commitment is consistent with both the Town's Strategic Plan and Comprehensive Plan. The *Town of Zebulon: Vision 2030 Strategic Plan* lists "Growing Smart" as one of its three focus areas, calling for the planning of appropriate land uses and affordability of the community. The *Grow Zebulon Comprehensive Land Use Plan* identifies six guiding principles for the town. Two of those principles are "Zebulon will be BALANCED" and "Zebulon will be PRUDENT." A balance should be achieved for the Town's tax base, its land uses, and its housing types to allow for an affordable community with employment and business opportunities that will help the community prosper. The achievement of balance in Zebulon will contribute to the Town being prudent. As stated previously, a local government's cost of providing services to commercial properties is generally less than that of residential properties. Having a balanced tax base that is not proportionally over-saturated with residential properties will contribute to keeping the Town financially sound.

Below are three development goals that are integral to the utility allocation policy and the future of the Town. These development goals apply to the entire, future Zebulon jurisdiction including the ETJ, short-range and long-range urban service areas.

GOAL #1: Maintain 60%-40% ratio of residential to non-residential tax values.

Upon Adoption-January 2021
60% Residential - 40% Non-Residential

GOAL #2: Residential Housing Percentage Breakdown
SFD|TH|MF – 75%|10%|15% (Note – Duplex counted as MF)

Upon Adoption-January 2021
80.5% | 0.5% | 19%

GOAL #3: Encourage Mixed Use Development to improve pedestrian connectivity to non-residential activity.

Policy and Procedures

Water Allocation

All existing parcels of real property within the corporate limits of Zebulon, regardless of proposed acreage, shape, or location as of the adoption of this ordinance are entitled to **115 gallons per day** of water allocation to build and sustain a single family or a limited business or commercial use. No additional water allocation will be awarded for proposed development except in accordance with the requirements of this policy.

Wastewater Connection

All projects considered for utility allocation must provide a wastewater system connection with adequate receiving capacity, as determined by the Wake County Health Department and/or City of Raleigh Public Utilities Department and approved by the Town of Zebulon Planning Director.

General Conditions & Requirements

- All proposed projects must be within the existing corporate limits or have filed a valid and complete petition for Voluntary Annexation.
- All proposed projects under consideration must have a complete application submitted for the appropriate Master Plan, Subdivision, Site Plan, Special Use Permit, Conditional Zoning Request, Zoning Compliance Permit, Building Permit, or any other necessary approval.
- All projects are subject to a Utility Allocation or Developer's Agreement approved by the Town's Board of Commissioners. If the Developer/Applicant fails to meet all terms of that agreement the unused allocation will be reclaimed, no new building permits will be issued, and no new connections to the water or wastewater systems will be permitted. Active building permits will have certificates of occupancy held until mitigating measures are agreed to by all parties.
- Projects with proven vested rights upon adoption of this ordinance will be permitted to finish their projects as previously approved.
- Public water may be utilized for irrigation purposes so long as the Primary Use associated with the site has previously gained water allocation through the Town.
- Any third parties who buy land to build upon are bound by the approved Utility Allocation Agreement or Development Agreement for that property. If the agreement is not fulfilled, the above terms and conditions still apply regardless of who owns the land.

Compliance Required

This policy allocates municipal water in gallons per day for new development proposals, master plans, site plans, building plans, and/or structures seeking construction approval. Each phase of a phased development must comply with the terms and development schedule of an approved Utility Allocation Agreement before the next phase can begin or the development risks loss of previously reserved allocation.

Previously dedicated but unused allocation can be reclaimed by the Town's Board of Commissioners for:

(1) the lack of compliance with any existing Utility Allocation or Developer's Agreement;

(2) violation of applicable town policy provision, ordinance standard, condition of approval;

(3) violation of federal or state regulation; or

(4) other good cause.

Utility Allocation Application Process

Upon receiving a new development proposal requesting water capacity, the Planning Staff shall direct the Developer/Applicant to demonstrate the project's qualifications. A Developer/Applicant shall state on the appropriate application, and stipulate within an approved Utility Allocation Agreement, the use or uses proposed to be built as part of the project along with the construction design and materials. Town action on the request will be deferred until the application is complete and the requested information has been provided.

Proposed projects shall complete the UTILITY ALLOCATION WORKSHEET according to its instructions to determine the total number of points achieved. The Utility Allocation Application package will be reviewed for completeness and compliance by the Technical Review Committee (TRC) in conjunction with the applicable development approval for the subject property (conditional rezoning, planned development, site plan, etc.).

Qualification for water allocation is judged by:

- The level of developer investment
- Anticipated increases in the Town's ad valorem tax base
- Construction and dedication of public infrastructure
- Provision of employment opportunities for Zebulon citizens
- Provisions of diversified housing stock
- Preservation of open space
- Protection of existing tree canopy
- Conservation of existing habitat
- The provision of recreational amenities for current or future Zebulon residents

Projects must be awarded **60 TOTAL POINTS** or more to merit water allocation.

Points are awarded in two categories, BASE POINTS and BONUS POINTS. BONUS POINTS are broken down into six categories.

1. Nonconformity Abatement and Public Infrastructure Improvements
2. Green Development Standards
3. Gateway and Transit Improvements
4. Amenities
5. Affordable Housing
6. Other

Unless a project can gain all necessary BONUS POINTS from a single improvement identified in the approved list, improvements must be made from at least two of the categories of BONUS POINTS.

All features and/or improvements that earn a projects BONUS POINTS must be clearly shown on a development plan for each application type.

Expiration of Allocation Award

A developer/applicant who has secured allocation according to this policy and hasn't progressed in construction plan approval, building permit approval, or on-site construction for a period of 12 months will lose the award of allocation without benefit.

Annual Review of Policy & Appeals

This policy shall be reviewed in January of each year and, when appropriate, readjusted by the Town's Board of Commissioners. The Town's overall progress on policy goals will be considered and the multipliers and/or point thresholds readjusted accordingly.

Appeals of any provision of this ordinance shall be decided upon by the Town's Board of Commissioners upon receiving a recommendation from the Planning Board.

BASE POINTS: List of Preferred Land Uses and Required Characteristics:

The uses listed below have been determined to be the most desirable and important uses for the Town of Zebulon to promote and maintain economic and housing diversity. Only projects that completely meet the stated performance characteristics will be considered for utility allocation. Please select one of the following Base Point classifications.

60 Base Points	**Single Family Homes (Expedited Subdivision or Recombination)** Newly constructed Single Family Homes built upon new lots created via the minor subdivision, exempt subdivision, expedited subdivision (3 or fewer lots) or recombination process.
60 Base Points	**Change of Use** This category captures renovation, rehabilitation, up-fit or retrofit of existing buildings or portions of buildings that pre-date this policy and require a code summary sheet, change in building occupancy, certificate of occupancy, building permit and/or building inspections and do not increase the utility demand from the previous use of the building.
45 Base Points	**Business Office/Finance/ Insurance / Professional Services Center - Large** Qualifying projects must exceed 100,000 square feet of heated floor space and create at least 150 employment positions that exceed the average annual Wake County salary according to Wake County Economic Development or the Employment Security Commission. Employees perform professional, scientific, and technical services for others. Such services require a high degree of expertise and training and provide high salaried employment opportunities. Examples include software engineering, legal, medical, accounting, consulting, architectural, biomedical, chemical, research and development, and administrative services. Finance or Insurance Centers shall also pool financial risks by underwriting insurance and annuities. Some establishments support employee benefit programs. Examples include bank or credit union headquarters, brokerages, investments, insurance, financing, and data processing establishments.
45 Base Points	**Manufacturing/Industrial Employment Center** Manufacturing or Industrial establishments in this category exceed 200,000 square feet of floor space located in plants, factories, or mills and employ power-

	driven machines and materials-handling equipment. They may also employ workers who assemble or create new products by hand, without the characteristic machinery-intensive enterprise. Many manufacturing establishments process products of agriculture, forestry, fishing, mining, or quarrying as well as products of other manufacturing establishments. Most manufacturing establishments have some form of captive services (e.g., research and development, and administrative operations, such as accounting, payroll, or management) in conjunction on-site.
45 Base Points	**Governmental Uses/Public Administration** This category encompasses centers for all government functions; it includes federal, state, and local government agencies that administer, oversee, and manage public programs and budgets and have executive, legislative, or judicial authority. Establishments develop policy, create laws, adjudicate civil and criminal legal cases, and provide for public safety and national defense.
40 Base Points	**Single Use Retail** Newly constructed single use, stand-alone building used primarily for retail, restaurant, or similar commercial use.
40 Base Points	**Hotels, Motels, or other Accommodation Service Establishments** This category serves lodging and short-term accommodations for travelers. They may offer a wide range of services, from overnight sleeping space to full-service hotel suites. They may offer these services in conjunction with other activities, such as entertainment or recreation. Stays in these establishments are generally less than one month. This classification does not include boarding or rooming houses.
40 Base Points	**Arts/Entertainment/Museums** These establishments operate facilities or provide services for a variety of cultural, entertainment, and performing art functions. Establishments include those that produce, promote, or participate in live performances, events, or exhibits intended for public viewing; those that preserve and exhibit objects and sites of historical, cultural, or educational interest; and those that operate facilities or provide services to serve activities associated with the aforementioned.
40 Base Points	**Amusement, Sports or Recreational Establishment** Establishments in this category operate either indoor or outdoor facilities offering family activities (i.e. sports, recreation, or amusement) and provide services, such as facilitating amusement in places operated by others, operating recreational sports groups and leagues. Examples include golf courses, indoor sports venues, bowling alleys, miniature golf courses, athletic clubs, skating rinks and arcades. This category may be used in conjunction with a commercial or residential development as a mixed use development.
40 Base Points	**Mixed Use Development (Transit Oriented)** Newly constructed or substantially rehabilitated collection of vertically mixed retail, office and residential uses in multi-story buildings centered within a one-half mile radius of an existing rail or bus transit station or the intersection of

	Horton Street and North Arendell Avenue in Downtown Zebulon. In order to qualify as mixed use, developments must dedicate at least one-third of the total heated square footage to residential use and the remainder to a mix of retail and office uses. All three use types must be represented and at least 10% of the heated square footage must be dedicated to street level, storefront retail uses.
40 Base Points	**Mixed Use Development (Urban Infill)** Newly constructed or substantially rehabilitated collection of mixed retail, office and residential uses in a multi-story building on a previously developed parcel within the corporate limits. In order to qualify as mixed use, developments must dedicate at least one-third of the total heated square footage to residential use and the remainder to a mix of retail and office uses. All three use types must be represented and at least 10% of the heated square footage must be dedicated to street level, storefront retail uses.
40 Base Points	**Mixed Use Development (Greenfield)** Newly constructed collection of mixed retail, office and residential uses in a multi-story building or buildings on a previously undeveloped parcel. In order to qualify as mixed use, developments must dedicate at least one-third of the total heated square footage to residential use and the remainder to a mix of retail and office uses. All three use types must be represented and at least 10% of the heated square footage must be dedicated to street level, storefront retail uses.
35 Base Points	**Housing Services for the Elderly Establishments** This category offers housing services for the aged, not requiring a license from the North Carolina Department of Health and Human Services, such as independent retirement housing, multi-unit assisted housing with services (MAHS), and continuing care retirement centers. All facilities must provide, but not necessarily be limited to, the following services/facilities: On-site laundry facilities, on site management, guaranteed transportation services at least four days per week, on-site exercise facilities, on-site computer access, and a clubhouse/common lounge area for all residents.
35 Base Points	**Mixture of Use Development (Retail/Office-Institutional/Commercial)** Newly constructed collection of horizontally arranged uses including retail, office-institutional and commercial within a master planned project on a previously undeveloped parcel or parcels totaling at least 10 acres. Mixture of use projects must include at least two (2) use types with at least 25% of the space devoted to each use type included in the development.
30 Base Points	**Retail/Commercial Center** Newly constructed center of at least 50,000 square feet, typically containing an anchor such as a grocery store and other smaller spaces and/or outparcels for subordinate uses. Uses are entirely consumer-driven and include all manner of retail, service and office possibilities.
30 Base Points	**Business Office/Finance/ Insurance / Professional Services Center – Medium** Qualifying projects must exceed 50,000 square feet of heated floor space and create at least 75 employment positions that exceed the average annual Wake County salary according to Wake County Economic Development or the

	Employment Security Commission. Employees perform professional, scientific, and technical services for others. Such services require a high degree of expertise and training and provide high salaried employment opportunities. Examples include software engineering, legal, medical, accounting, consulting, architectural, biomedical, chemical, research and development, and administrative services. Finance or Insurance Centers shall also pool financial risks by underwriting insurance and annuities. Some establishments support employee benefit programs. Examples include bank or credit union headquarters, brokerages, investments, insurance, financing, and data processing establishments.
30 Base Points	**Business Office/Finance/ Insurance / Professional Services Center – Small** Qualifying projects 50,000 square feet of heated floor space or less. Employees perform professional, scientific, and technical services for others. Such services require a high degree of expertise and training and provide high salaried employment opportunities. Examples include software engineering, legal, medical, accounting, consulting, architectural, biomedical, chemical, research and development, and administrative services. Finance or Insurance Centers shall also pool financial risks by underwriting insurance and annuities. Some establishments support employee benefit programs. Examples include bank or credit union headquarters, brokerages, investments, insurance, financing, and data processing establishments.
30 Base Points	**Multi-Tenant Retail Center** Newly constructed center 50,000 square feet or less, typically containing a more than one tenant space within a single structure. Uses are entirely consumer-driven and include all manner of retail, service and office possibilities.
30 Base Points	**Single Use Office** Newly constructed single use, stand-alone building used primarily for office and professional.
30 Base Points	**Bungalow Court or Pocket Neighborhood** Newly constructed Bungalow Court or Pocket Neighborhood per the standards of the Unified Development Ordinance.
30 Base Points	**Distribution/Trucking Center** Newly constructed center of at least 500,000 square feet where products and resources are transported to and delivered from via truck or rail.
25 Base Points	**Warehouse** Newly constructed center of at least 500,000 square feet where products and resources are stored.
25 Base Points	**Religious Institutions** Any facility such as a church, temple, synagogue, mosque or monastery used for worship by a non-profit organization and their customarily related uses.
20 Base Points	**Intensive Industrial Uses:** Uses classified as Special Land Uses within the Industrial Classification.

20 Base Points	**Multi-Family Residential & Condo Units**
20 Base Points	**Major Subdivision 4- 25 Lots** Any subdivision of land of four (4) – 25 Lots.
10 Base Points	**Major Subdivision 26 lots or more** Any subdivision of land of 26 or more lots.
Board Determination	**All Other Uses Not Categorized** This category of use captures all other uses not categorized elsewhere. Allocations for such uses are left to the discretion of the Town's Board of Commissioners upon recommendation of the Planning Board and acted on a case-by-case basis.

TOWN COUNCIL MEMO ON 2/19 FOLLOW UP CALL WE CAN TAKE CREDIT FOR THESE POINTS.

BONUS POINTS

Proposed projects can gain BONUS POINTS by agreeing to provide any of the following items over and above the UDO or Standard Specification requirements for their development proposal.

NOTE: No bonus points are given for UDO requirements.

CATEGORY 1 – Non-Conformity Abatement and Public Infrastructure Improvements

Section 1A - Abatement of Nonconformities		(Max - 3 points)
✔	Abatement of any existing non-conforming structures	3
	Abatement of any existing non-conforming use of land	2
	Abatement of any existing non-conforming lots	1

Section 1B - Roadway Infrastructure Not Warranted by TIA/UDO/CTP		(Max - 10 points)
	Construction of full cross section of existing off-site public street	5
	Nearby intersection improvements	5

CASE # Planned Development 2025-05: Sheetz (1406 N Arendell)

HEARING DATE: October 13, 2025

State of North Carolina

County of Wake

BEFORE ME, the undersigned Notary, E. McKinney Worner on this 9th day of October 2025, personally appeared Matthew Lower, known to me to be a credible person and of lawful age, who being by me first duly sworn, on his oath, deposes and says:

I Matthew Lower, Planning Director for the Town of Zebulon, affirm that the following Public Notice Procedures have been completed in accordance with applicable North Carolina General Statute and Town of Zebulon Unified Development Ordinance Section 2.3.6 have been satisfied for the above referenced hearing.

- Advertisement in a Paper of General Circulation sent on September 29, 2025 (Wake weekly, publication dates **10/3/2025 & 10/10/2025**)
- Posted to Planning Department Website **9/29/2025**
- Signs Posted on Site **10/1/2025**
- Mailed Notices sent out **10/1/2025**

Matthew Lower — Date: 10/9/2025

Subscribed and sworn to before me, this 9th day of October 2025.

[Notary Seal:] E. MCKINNEY WORNER NOTARY PUBLIC WAKE COUNTY, NC My Commission Expires May 23, 2027

[signature of Notary] — [printed name of Notary]: E. McKinney Worner

NOTARY PUBLIC

My commission expires: May 23, 2027.

Notice of Public Hearing

Notice is hereby given pursuant to the provisions of Article 2.3.6 of the Town of Zebulon Unified Development Ordinance that a public hearing will be held on **October 13th, 2025, at 6:00 PM** at the **Zebulon Municipal Complex, 1003 N. Arendell Avenue**, and will be conducted by the Board of Commissioners and Planning Board for the purpose of considering the following items:

IDT Project Number 1745359– Planned Development 2025-05 – Sheetz (1406 N Arendell Ave)
PIN #2706011220 A request by Sheetz, INC., for a rezoning from Heavy Commercial (HC) to Planned Development for the use of a Convenience Store with Gasoline Sales.

Public comments may be submitted to publiccomments@townofzebulon.org no later than 12:00 Noon on the day of the hearing to be read into the record. Links will be provided along with the full application packet and documentation on the Planning Department web page at https://www.townofzebulon.org/departments/planning/public-hearing-information. For questions or additional information, please contact us at (919) 823-1811.

Aviso de audiencia pública

Por la presente se notifica, de conformidad con lo dispuesto en el artículo 2.3.6 de la Ordenanza de Desarrollo Unificado de la ciudad de Zebulon, que el **13 de octubre de 2025, a las 18:00 horas**, se celebrará una audiencia pública en el **Complejo Municipal de Zebulon, situado en 1003 N. Arendell Avenue**, que será dirigida por la Board of Commissioners y la Planning Board con el fin de examinar los siguientes puntos:

> ***Proyecto IDT Numero 1745359: Desarrollo Planificado 2025-05 – Sheetz (1406 N Arendell Ave)***
> *PIN Numero 2706011220* Solicitud de Sheetz, INC., para cambiar la zonificación de comercial pesado (HC) a desarrollo planificado para el uso de una tienda de conveniencia con venta de gasolina.

Los comentarios públicos pueden enviarse a publiccomments@townofzebulon.org antes de las 12:00 del mediodía del día de la audiencia para que se lean en el acta. Se proporcionarán enlaces junto con el paquete completo de la solicitud y la documentación en la página web del Departamento de Planificación en https://www.townofzebulon.org/departments/planning/public-hearing-information. Si tiene alguna pregunta o desea obtener información adicional, póngase en contacto con nosotros en el (919) 823-1811.
